is strongly recommended for all students.This course is intended primarily for Computer Science, Computer
Engineering, and Electrical Engineering majors and Computer Science
minors. Other undergraduate students should register for CS 300.Graduate students may not schedule CS 225 and should register for
CS 300. Undergraduate students other than Computer ScienceComputer Engineering, and Electrical Engineering majors may not
schedule C S 225 until December 01, 2003.Students who take C S 225 in Fall 1998 or later may not also
receive credit in C S 223 or C S 110 C or CP.

Computer programming assignments will be written in C++ which

C S 225 CONTINUED

will be taught in the course.

Register for the LECTURE section and one LAB-DISC section.

For honors credit in this course, see C S 296 section &25.

C S 231 COMPUTER ARCHITECTURE, I.

PREREQUISITE: C S 125.

*STUDENTS MAY NOT RECEIVE CREDIT FOR BOTH C S 231 AND ECE 290.

3 HOURS.

Approximately five hours per week of computer homework must be done in unscheduled laboratory sessions.

A review session will be held each week at 11:00 on Friday.

Students should adjust their schedule accordingly.

For honors credit in this course, see CS 296 section &31.

01462	LECT	D	11	MM	1320 D C L	KALE

3 HOURS.

Lectures A & B will meet twice a week for a large lecture and once a week in a lab/quiz with a teaching assistant. Both lectures A & B utilize computer-based materials and will do work in a team-based setting. Registering for a lab puts you in the lecture.
CS 105 is recommended.

The timetable shows computer labs and quiz rooms on Wednesdays. Instructions will be given at the first lecture as to what days to go to the lab and what days to go to the quiz classroom.

EDUCATIONAL PRACTICEDEPARTMENT OFFICE 130 EDUCATION BUILDING
DEPARTMENT PHONE (217) 333-2804

ADMISSION TO EDUCATIONAL PRACTICE (STUDENT TEACHING) IS LIMITED TO THOSE STUDENTS WHO ARE IN GOOD STANDING IN A TEACHER EDUCATION CURRICULUM APPROVED BY THE COUNCIL ON TEACHER EDUCATION.

ELIGIBILITY REQUIREMENTS FOR STUDENT TEACHING AND FOR RECEIVING A UNIVERSITY OF ILLINOIS RECOMMENDATION FOR CERTIFICATION ARE DESCRIBED IN THE COUNCIL ON TEACHER EDUCATION SECTION OF THE PROGRAMS OF STUDY CATALOG. CANDIDATES FOR UNIVERSITY OF ILLINOIS TEACHER EDUCATION DEGREES MUST COMPLETE EDUCATIONAL PRACTICE AS PART OF THE PROFESSIONAL SEMESTER WHICH IS GENERALLY TAKEN IN THE FALL OR SPRING SEMESTER OF THE CANDIDATE'S SENIOR YEAR. FEW PROGRAMS OFFER STUDENT TEACHING DURING SUMMER SEMESTER. FOR THOSE THAT DO, APPLICATION SHOULD BE MADE DURING THE MONTH OF APRIL. APPLICATION FORMS MAY BE OBTAINED FROM DEPARTMENTAL OFFICES. ELIGIBILITY INCLUDES HAVING A 2.5 CUMULATIVE AND UNIVERSITY GPA AND COMPLETION OF 100 CLOCK HOURS OF EARLY FIELD EXPERIENCES.

APPROXIMATELY ONE YEAR PRIOR TO THE SCHOOL YEAR IN WHICH THEY EXPECT TO ENROLL IN STUDENT TEACHING, STUDENTS MUST ATTEND AN INFORMATIONAL MEETING WHERE THEY WILL RECEIVE AN APPLICATION TO APPLY FOR A TENTATIVE STUDENT TEACHING ASSIGNMENT IN THE ILLINOIS PUBLIC SCHOOLS. THESE APPLICATIONS MUST BE COMPLETED AND PROCESSED PROMPTLY THROUGH THE APPROPRIATE DEPARTMENT. ALL STUDENT TEACHING APPLICATIONS MUST BE RECEIVED NO LATER THAN THE SECOND FRIDAY IN DECEMBER DURING THE YEAR PRIOR TO THE SCHOOL YEAR IN WHICH A STUDENT EXPECTS TO STUDENT TEACH. STUDENTS WHOSE APPLICATIONS ARE APPROVED WILL ENROLL FOR THE FOLLOWING SCHOOL YEAR. STUDENTS MAY NOT STUDENT TEACH IN THE HIGH SCHOOL FROM WHICH THEY GRADUATED.

EDUCATIONAL PRACTICE IS UNDER THE GENERAL SUPERVISION OF THE COUNCIL ON TEACHER EDUCATION.

ED PR 150 SCHOOL AND COMMUNITY EXPERIENCES.

PREREQUISITE: CONSENT OF INSTRUCTOR.

0 TO 4 HOURS.

FOR INDEPENDENT STUDY REGISTRATION IN THIS COURSE, STUDENTS SHOULD CONTACT THE DEPARTMENT OFFICE.

COURSE GRADED ON S/U BASIS ONLY.

SECTION B: BUSINESS EDUCATION. 2 HOURS.

SECTION EC: EARLY EXPERIENCES WITH INFANTS AND TODDLERS. STUDENTS WILL OBSERVE AND PARTICIPATE WITH CHILDREN AGES BIRTH TO TWO YEARS IN DAY CARE OR NURSERY PROGRAMS FOR A MINIMUM OF 24 CLOCK HOURS DURING THE SEMESTER. THIS COURSE FULFILLS THE PRE-REQUISITE FOR C & I 320 AND PARTIALLY FULFILLS REQUIREMENTS FOR EARLY CHILDHOOD CERTIFICATION. PREREQUISITE ADMISSION TO EARLY CHILDHOOD TEACHER EDUCATION PROGRAM.

ED PR 150 CONTINUED

1.00 Credit Hours.

Section H: PERSONAL FINANCIAL PLANNING (First 8 week period) 2 HOURS

Prerequisite: junior or senior. A survey of the financial planning
process and industry, this course covers investment, tax, insurance,
and retirement planning. Applicable to those interested in creating
a sound personal financial plan early in one's working career and
those interested in becoming a financial planner. A special emphasis
is put on real-world solution: Asset allocation, spreadsheets, Monte
Carlo simulations, etc.

*ONE UNIT CREDIT REQUIRES APPROVAL OF THE INSTRUCTOR AND COMPLETION OF ADDITIONAL WORK OF SUBSTANCE.

3 HOURS, OR 0.75 OR 1 UNIT.

04989 LECD E1 1 MWF 341 ALTGELD

MATH 344 ELEMENTARY REAL ANALYSIS.

PREREQUISITE: MATH 242 OR 243 OR 245; MATH 247 OR 248 OR EQUIVALENT EXPERIENCE.

*CREDIT WILL NOT BE GIVEN FOR BOTH MATH 344 AND 347. ONE UNIT CREDIT REQUIRES APPROVAL OF THE INSTRUCTOR AND COMPLETION OF ADDITIONAL WORK OF SUBSTANCE.

3 HOURS, OR 0.75 OR 1 UNIT.

04990 LECD D1 11 MWF 142 HENRY BLD
04991 LECD N1 1030-1150 TUTH 143 HENRY BLD

MATH 346 COMPLEX VARIABLES AND APPLICATIONS.

PREREQUISITE: MATH 243 OR 280, OR CONSENT OF INSTRUCTOR.

*CREDIT IS NOT GIVEN FOR BOTH MATH 346 AND 348. ONE UNIT CREDIT REQUIRES APPROVAL OF THE INSTRUCTOR AND COMPLETION OF ADDITIONAL WORK OF SUBSTANCE.

3 HOURS, OR 0.75 OR 1 UNIT.

04992 LECD B1 9 MWF 345 ALTGELD

MATH 347 INTRODUCTION TO HIGHER ANALYSIS: REAL VARIABLES.

PREREQUISITE: MATH 242 OR 243 OR 245 OR EQUIVALENT, AND JUNIOR STANDING OR CONSENT OF INSTRUCTOR; MATH 247 OR 248 OR EQUIVALENT EXPERIENCE.

*CREDIT IS NOT GIVEN FOR BOTH MATH 344 AND 347. ONE UNIT CREDIT REQUIRES APPROVAL OF THE INSTRUCTOR AND COMPLETION OF ADDITIONAL WORK OF SUBSTANCE.

3 HOURS, OR 0.75 OR 1 UNIT.

04993 LECD C1 10 MWF 441 ALTGELD

MATH 348 INTRODUCTION TO HIGHER ANALYSIS: COMPLEX VARIABLES.

PREREQUISITE: MATH 243 OR 280; MATH 347.

*CREDIT IS NOT GIVEN FOR BOTH MATH 346 AND 348. ONE UNIT CREDIT REQUIRES APPROVAL OF THE INSTRUCTOR AND COMPLETION OF ADDITIONAL WORK OF SUBSTANCE.

3 HOURS, OR 0.75 OR 1 UNIT.

04994 LECD E1 1 MWF 243 ALTGELD

MATH 350 NUMERICAL ANALYSIS: A COMPREHENSIVE INTRODUCTION.

Same As C S 350, CSE 301, ECE 391

PREREQUISITE: C S 101 AND 110 OR 125; C S 257 OR MATH 315; MATH 285 OR 341; OR CONSENT OF INSTRUCTOR.

3 HOURS, OR 0.75 TO 1 UNIT.

Prerequisite: Undergraduate students are strongly encouraged to have previous credit for C S 257.

The drop deadline for ALL students in this course is March 12, 2004.

04995 LECD B 9 MWF 1310 D C L BOND

MATH 351 TOPICS IN APPLIED MATHEMATICS.

PREREQUISITE: CONSENT OF INSTRUCTOR.

*MAY BE REPEATED WITH CONSENT OF INSTRUCTOR.

1 TO 4 HOURS, OR 0.25 TO 1 UNIT.

SECTION N1 CONSIDERS SYMMETRIC GROUPS.

04996 LECD N1 1030-1150 TUTH 148 HENRY BLD

MATH 353 ELEMENTARY THEORY OF NUMBERS.

PREREQUISITE: MATH 242 OR 243 OR 245, OR EQUIVALENT.

*ONE UNIT CREDIT REQUIRES APPROVAL OF THE INSTRUCTOR AND COMPLETION OF ADDITIONAL WORK OF SUBSTANCE.

3 HOURS, OR 0.75 OR 1 UNIT.

04997 LECD M1 9-1020 TUTH 149 HENRY BLD
04998 LECD D1 11 MWF 343 ALTGELD

MATH 358 NUMERICAL LINEAR ALGEBRA.

Same As C S 358, CSE 312

PREREQUISITE: C S/MATH 257 OR CONSENT OF INSTRUCTOR.

3 HOURS, OR 0.75 OR 1 UNIT.

The drop deadline for ALL students in this course is March 12, 2004.

04999 LECD D 11-1215 TUTH 256 M E BLDG SKEEL

MATH 361 INTRODUCTION TO PROBABILITY THEORY, I.

Same As STAT 351

PREREQUISITE: MATH 242 OR 243 OR 245 OR EQUIVALENT.

*ONE UNIT CREDIT REQUIRES APPROVAL OF THE INSTRUCTOR AND COMPLETION OF ADDITIONAL WORK OF SUBSTANCE.

3 HOURS, OR 0.75 OR 1 UNIT.

SECTION G8 IS A MATHEMATICA SECTION AND DEALS WITH THE USUAL MAIN TOPICS OF PROBABILITY THEORY WITH DUE REGARD FOR IN-CONTEXT APPLICATIONS INCLUDING SOME STATISTICS. ONE OF THE MAIN DIFFERENCES IS MOTIVATION OF THE IDEAS THROUGH COMPUTER ANALYSIS OF DATA SETS RATHER THAN MOTIVATION THROUGH COMBINATORICS. IT IS TAUGHT AS A LAB-BASED COURSE WITH COMPUTER SOFTWARE WRITTEN AT UIUC. STUDENTS TAKING THIS SECTION MAY ALSO ENROLL IN MATH 190 X.

05000 LECD B1 9 MWF 347 ALTGELD
05001 LECD C1 10 MWF 443 ALTGELD
05002 LECD D1 11 MWF 345 ALTGELD
05003 LECD E1 1 MWF 154 HENRY BLD
05004 LECD F1 2 MWF 140 HENRY BLD

THE FOLLOWING SECTION WILL USE MATHEMATICA

05005 LECD G8 3 MWF 245 ALTGELD

MATH 363 INTRODUCTION TO MATHEMATICAL STATISTICS AND PROBABILITY, I.

Same As STAT 310

PREREQUISITE: MATH 242 OR 245, OR EQUIVALENT.

4 HOURS, OR 1 UNIT.

05006 DISC G1 3 W 384 ARMORY
LECT D1 11 MWF 112 GREG HALL Stepanov

LECT E1 1 MWF 62 K A M MONRAD
05013 DISC U3 4 TH 196 LINCOLN
LECT E1 1 MWF 62 K A M MONRAD

MATH 364 INTRODUCTION TO MATHEMATICAL STATISTICS AND PROBABILITY, II.

Same As STAT 311

PREREQUISITE: STAT 310; OR STAT 100 AND MATH 361.

*CREDIT IS NOT GIVEN FOR BOTH STAT 311 AND 309.

3 HOURS, OR 1 UNIT.

05014 LECD G1 3 MWF 223 GREG HALL MONRAD

MATH 365 ANALYSIS OF VARIANCE.

Same As STAT 324

PREREQUISITE: CREDIT OR CONCURRENT REGISTRATION IN MATH 315 AND STAT 311.

3 HOURS, OR 1 UNIT.

05015 LECD D1 11 MWF 2 ILL HALL SIMPSON

MATH 368 TOPICS IN APPLIED STATISTICS.

MATH 368 CONTINUED

Same As STAT 330

PREREQUISITE: STAT 311, 320, OR CONSENT OF INSTRUCTOR.

*MAY BE TAKEN FOR CREDIT MORE THAN ONCE WITH CONSENT OF INSTRUCTOR.

3 HOURS, OR 1 UNIT.

05016 LECT S1 230-350 TUTH 106 LINCOLN Douglas

MATH 369 METHODS OF APPLIED STATISTICS.

Same As STAT 320

PREREQUISITE: STAT 308 OR 310, MATH 130, 131 OR 134 OR EQUIVALENT, AND KNOWLEDGE OF BASIC MATRIX MANIPULATIONS; OR CONSENT OF INSTRUCTOR.

3 HOURS, OR 1 UNIT.

05017 LECT N1 1-220 TUTH 196 LINCOLN BAILEY

MATH 372 ACTUARIAL THEORY, II.

PREREQUISITE: MATH 371.

*ONE UNIT CREDIT REQUIRES APPROVAL OF THE INSTRUCTOR AND COMPLETION OF ADDITIONAL WORK OF SUBSTANCE.

3 HOURS, OR 0.75 OR 1 UNIT.

MEETS CONCURRENTLY WITH MATH 472.

05018 LECT X1 12 MWF 153 M E BLDG

MATH 373 COMBINATORIAL ALGORITHMS.

Same As C S 373, CSE 314

PREREQUISITE: C S 225 AND 273, OR CONSENT OF INSTRUCTOR.

3 HOURS, OR 0.75 OR 1 UNIT.

PRIORITY REGISTRATION WILL BE GIVEN TO CS AND ECE MAJORS.

ALL SEATS RESERVED UNTIL JANUARY 19, 2004.

The drop deadline for ALL students in this course is March 12, 2004.

This section is open to UNDERGRADUATE students only.
05019 LECT S 2-315 TUTH 314 ALTGELD ERICKSON

This section is intended for GRADUATE students. Computer Science students who are in the 5 year BS/MS program, or intend to apply for it, should also register for this section.

05020 LECT T 330-445 TUTH 112 CHEMANNEX HAR-PELED

MATH 377 SURVIVAL ANALYSIS.

PREREQUISITE: MATH 309 OR 364; MATH 371 RECOMMENDED BUT NOT REQUIRED.

3 HOURS, OR 0.75 UNIT.

MEETS CONCURRENTLY WITH MATH 477.

05021 LECT M1 9-1020 TUTH 142 HENRY BLD GORVETT

MATH 381 VECTOR AND TENSOR ANALYSIS.

PREREQUISITE: MATH 243 OR 280, OR CONSENT OF INSTRUCTOR.

*ONE UNIT CREDIT REQUIRES APPROVAL OF THE INSTRUCTOR AND COMPLETION OF ADDITIONAL WORK OF SUBSTANCE.

3 HOURS, OR 0.75 OR 1 UNIT.

05022 LECT F1 2 MWF 159 ALTGELD

MATH 382 LINEAR PROGRAMMING AND COMBINATORIAL OPTIMIZATION.

PREREQUISITE: MATH 315.

*CREDIT IS NOT GIVEN FOR MATH 283 IF TAKEN AFTER MATH 382. ONE UNIT CREDIT REQUIRES APPROVAL OF THE INSTRUCTOR AND COMPLETION OF ADDITIONAL WORK OF SUBSTANCE.

3 HOURS, OR 0.75 OR 1 UNIT.

05023 LECT D1 11 MWF 441 ALTGELD

MATH 384 NONLINEAR PROGRAMMING.

PREREQUISITE: MATH 242 OR 243 OR 245; KNOWLEDGE OF LINEAR ALGEBRA EQUIVALENT TO MATH 315 OR CONSENT OF INSTRUCTOR; MATH 247 OR 248 OR EQUIVALENT EXPERIENCE.

*ONE UNIT CREDIT REQUIRES APPROVAL OF THE INSTRUCTOR AND COMPLETION OF ADDITIONAL WORK OF SUBSTANCE.

3 HOURS, OR 0.75 OR 1 UNIT.

05024 LECT B1 9 MWF 148 HENRY BLD

MATH 385 DIFFERENTIAL EQUATIONS, II.

PREREQUISITE: MATH 285 OR 341.

*ONE UNIT CREDIT REQUIRES APPROVAL OF THE INSTRUCTOR AND COMPLETION OF ADDITIONAL WORK OF SUBSTANCE.

3 HOURS, OR 0.75 OR 1 UNIT.

05025 LECT C1 10 MWF 345 ALTGELD

MATH 391 LOGIC DESIGN.

Same As C S 362, ECE 362

PREREQUISITE: ECE 290 OR C S 231.

3 HOURS, OR 0.75 UNIT.

05026 DISC C 10 MWF 151 EVERITT

MATH 393 STATISTICAL COMPUTING.

Same As STAT 328

PREREQUISITE: STAT 311 OR EQUIVALENT; KNOWLEDGE OF A PROGRAMMING LANGUAGE.

3 HOURS, OR 1 UNIT.

05027 LECT M1 9-1020 TUTH 2 ILL HALL BAILEY

MATH 400 INTRODUCTION TO GRADUATE MATHEMATICS.

PREREQUISITE: GRADUATE STANDING OR CONSENT OF INSTRUCTOR.

*MAY BE REPEATED IN SEPARATE SEMESTERS TO A MAXIMUM OF 1/2 UNIT.

0.25 UNIT.

05028 LECT M1 4 M 245 ALTGELD GRIFFITH

MATH 401 ABSTRACT ALGEBRA, I.

PREREQUISITE: MATH 317 AND 318.

PHYS 123 PHYSICS MADE EASY.

3 HOURS.

THIS COURSE IS DESIGNED FOR STUDENTS WHO ARE INTERESTED IN

EXPLAINING AND TEACHING SCIENCE TO CHILDREN AT THE ELEMENTARY

SCHOOL LEVEL. A HANDS-ON INQUIRY BASED APPROACH TO LEARNING IS

USED. NO MATH OR PHYSICS BACKGROUND IS NEEDED. TOPICS COVER

MANY OF THE NATIONAL SCIENCE EDUCATION K-4 CONTENT STANDARDS.

STUDENTS ASSEMBLE AND KEEP A SCIENCE TEACHING TOOL-KIT.

PS GEN ED DESIGNATION AWAITING APPROVAL.

REGISTER FOR BOTH THE LECTURE AND THE LAB.

PHYS 199HM

HONORS SEMINAR: TOPICS IN MECHANICS.

PREREQUISITES: CONCURRENT REGISTRATION IN PHYSICS 111

AND CONSENT OF INSTRUCTOR

*PHYSICS 199HM CAN BE USED TO SATISFY THE HONORS COMPONENT

OF PHYSICS 111.

This course is the honors supplement to PHYSICS 111 and is intended for those students intending to major in physics or who have a strong interest in the subject. Areas to be addressed include rotational and central force motion, non-inertial frames, non-linear systems and post-Newtonian mechanics. The use of simple visualization tools such as Mathematica and Excel will be encouraged.

TO REGISTER FOR PHYSICS 199HM, GO TO THE GENERAL PHYSICS COURSE OFFICE, 231 LOOMIS, AFTER YOUR REGISTRATION TIME 1 HOUR

06394 LECT HM 4-550 M 257 LOOMIS BECK

PHYS 199H0

HONORS SEMINAR: TOPICS IN ELECTRICITY AND MAGNETISM

PREREQUISITES: PHYSICS 111, CONCURRENT REGISTRATION IN PHYSICS 112,

AND CONSENT OF INSTRUCTOR

*PHYSICS 199H0 CAN BE USED TO SATISFY THE HONORS COMPONENT OF

PHYSICS 112.

Students investigate special topics in electricity and magnetism. Through weekly meetings (similar in format to the discussion sections of Physics 111 and 112), students will derive for themselves some of the surprising features of our post-classical physical world. For example, the need for special relativity, the existence of magnetic fields, and the origin of electromagnetic radiation are consequences of simple observations such as the constancy of the speed of light. Other topics will include the nature of Gauss' law and Maxwell's equations, potentials and superposition, amplifiers, analog computers, and the role of quantum mechanics in electrodynamics.

PHYSICS 199H0 is intended for students who have been comfortable with the level of difficulty of PHYSICS 111, and whose math skills are reasonably strong. It allows students to confront in greater depth some of the most interesting intellectual issues in classical electrodynamics. The course will use calculus as a problem-solving tool.

TO REGISTER FOR PHYSICS 199H0, GO TO THE GENERAL PHYSICS COURSE OFFICE, 231 LOOMIS, AFTER YOUR REGISTRATION TIME 1 HOUR

06395 LECT H0 1-250 M 139 LOOMIS MAKINS

PREREQUISITES: PHYSICS 111 AND PHYSICS 112

AND CONCURRENT REGISTRATION IN PHYSICS 113 AND PHYSICS 114

AND CONSENT OF INSTRUCTOR

*PHYSICS 199HT CAN BE USED TO SATISFY THE HONORS COMPONENT

OF PHYSICS 113 AND PHYSICS 114

PHYSICS 199HT is the honors supplement to PHYSICS 113/114 and is intended for those students either planning to major/minor in physics or having a strong interest in the subject. Areas to be covered during PHYSICS 113 include diffusion and heat conduction, the Maxwell-Boltzmann distribution and the ideal gas, the Planck distribution and radiation, free energy and the chemical potential, and quantum gases. Areas to be covered during PHYSICS 114 include particle scattering, photon quantum states, simple approximation methods (e.g., variational methods), particle exchange, and quantum statistics.

TO REGISTER FOR PHYSICS 199HT, GO TO THE GENERAL PHYSICS COURSE OFFICE, 231 LOOMIS, AFTER YOUR REGISTRATION TIME 1 HOUR

PHYS 498MMB

MATHEMATICAL METHODS IN PHYSICS

A continuation of PHYS 498MMA focusing on further core techniques widely used in the physical sciences. Emphasis is on applications, and a broad range of illustrative examples will be explored. Students do not need to have taken PHYS 498MMA. Primary topics include complex variables (analyticity, Cauchy's theorem, residue calculus, conformal mappings, integral transforms, asymptotic techniques, Riemann surfaces), group theory in classical and quantum systems (discrete and continuous groups, representation theory, physical applications of topology), tensors in physics (Cartesian tensors, curved spaces, elementary Riemannian geometry)

PHYS 498SSY

SUPERSYMMETRY AND SUPERSYMMETRIC FIELD THEORY

Almost all fundamental approaches to unifying the basic interactions make use of supersymmetry. In addition, supersymmetry appears in such diverse subjects as thermodynamics of complex systems, doped anti-ferromagnets, and spectra in nuclear physics. This course will develop the basic concepts and tools used in supersymmetric theories, starting with Witten's formulation of supersymmetric quantum mechanics. The structures of supersymmetric quantum mechanics will then be lifted up to the field theoretic case and put in the language of superfields and superspace in various space-time dimensions. Once this is complete, the course will explore various advanced topics, a sampling of which follows: (i) the "miraculous" ultraviolet softening of susy theories (ii) the concept of holomorphy in susy theories (iii) duality in susy theories (iv) topological objects in susy theories (v) susy breaking (vi) applications of susy in condensed matter physics (vii) susy and the standard model

Prerequisites: Physics 483 and 485 or the following. The first part of the course can be followed with a basic knowledge of quantum mechanics. The formulation of susy field theories requires a general knowledge of quantum field theory. The latter part of the course will build on more advanced topics in quantum field theory. A brief review of these will be given in each case.

PHYS 498PSD

THE PHYSICS OF SUPERCONDUCTOR DEVICES

This course will discuss the physical principles underlying the operation of superconductor electronic devices and survey some of their scientific and technological applications. The intent is to present a mixture of experimental results, physical models, theoretical calculations and descriptions of practical superconductor devices designed to give a solid background for understanding the phenomena, mechanisms and uses of classic and high temperature superconductivity. Approximately 1/3 of the course will be devoted to basic superconductivity, 1/3 to tunneling and transport phenomena (single particle and Josephson) and 1/3 to superconductor electronic devices (e.g. SQUIDS) and their applications for fundamental measurements, magnetic imaging and quantum computing.

PHYS 498MNS

MATTER IN NEUTRON STARS AND SUPERNOVAE

In this course we will discuss the nature and properties of the unusual forms of matter that may exist in neutron stars and participate in core collapse supernovae. The course will begin with an overview of the observed properties of neutron stars and supernovae. Matter in these astrophysical phenomena reaches densities exceeding 10¹⁵ g/cc and temperatures of order 50 MeV. We will discuss various properties of interest of this matter including composition, equation of state, and possible transitions to exotic phases including quark matter. Present theories of the emission, absorption and scattering of neutrinos by hot dense matter, responsible for most of the energy transport in supernovae and the cooling of neutron stars, will be presented. The superfluidity of neutron and quark matter will be discussed along with its role in the dynamics of neutron stars. This

PHYCS 498 CONTINUED

interdisciplinary course based on ideas in astro, condensed matter nuclear and particle physics will be essentially self contained.
 Prerequisites: PHYCS 480 and 481 or equivalent graduate quantum mechanics courses, and PHYS 470 or equivalent introductory course in particle and nuclear physics.

Introduction to the Class Schedule

The *Class Schedule* is the listing of course offerings for the term. It includes instructions on registration; details on adding and dropping classes; information about tuition, fees, and billing; academic calendar information; how to get a replacement ID card; and more. Therefore, please keep your printed copy for future reference.

Updated course offerings are also available in the online *Class Schedule* (<http://courses.uiuc.edu>) and from college and departmental advisers.

While every effort is made to provide accurate and up-to-date information, the University reserves the right to make changes to the *Class Schedule* without notice. Potential changes could concern rules, policies, procedures, tuition, fees, curricula, courses, or other matters. All course registrations are accepted subject to enrollment conditions set by the offering departments. In addition, colleges and departments reserve the right to:

- IMPOSE ENROLLMENT requirements and prerequisites,
- REASSIGN STUDENTS to other sections in a course,
- WITHDRAW STUDENTS from certain courses or sections after enrollment,
- CANCEL COURSE offerings or sections for legitimate educational reasons.

Students considering enrollment in military science, naval science, or air force aerospace studies courses should be aware that University policy prohibits discrimination on the basis of sexual orientation; students may enroll in these courses regardless of sexual orientation. At the time of this publication, students seeking to enroll in ROTC are not asked to disclose their sexual orientation. However, homosexual conduct is grounds for disenrollment from the program.

The Online Class Schedule

The *Class Schedule* is also available online at <http://courses.uiuc.edu> where you can also access the *Course Catalog*, *Programs of Study* and UI-INTEGRATE SELF-SERVICE.

The online *Class Schedule* is updated regularly and can be viewed by using a web browser (such as Netscape or Internet Explorer), which allows for convenient browsing.

Spring Semester 2006

Jan 16, Mon	Martin Luther King, Jr., birthday
Jan 17, Tue	Instruction begins
Mar 18, Sat 1:00 PM - Mar 26, Sun	Spring vacation
May 3, Wed	Instruction ends
May 4, Thurs	Reading day
May 5, Fri - May 12, Fri	Final examinations
May 14, Sun	Commencement

On Wednesday, August 25, 2004, students should attend classes according to their Monday schedule. Beginning on Thursday, August 26, 2004, classes will meet as scheduled in the *Class Schedule*. UIUC Senate Policy requires all class days to meet a minimum of fourteen times during a semester. The Labor Day holiday, along with the addition of a full week fall break, reduces the number of Monday class meeting days to thirteen necessitating the schedule change.

General Information

Addresses and Phone Numbers are Important

Have you moved recently or since you were last enrolled? Be sure to keep the Office of Admissions and Records informed of your current address and telephone number. That way you will not miss receiving important registration, college, and related information.

Each student is responsible for keeping the following addresses current on UI-INTEGRATE SELF-SERVICE:

MAILING ADDRESS (for mail sent during the term)

PERMANENT ADDRESS (for mail sent between terms)

PARENT HOME ADDRESS (as appropriate)

EMERGENCY CONTACTS

You may also update your telephone information on UI-INTEGRATE SELF-SERVICE. The University phone operators' listings, the Student/Staff Directory, and your entry to the online phone book will include the phone number listed in UI-INTEGRATE SELF-SERVICE. Continuing students should also check that corresponding address information is current in UI Direct through October 2004.

Student Records Policy

It is University policy to comply fully with the Family Educational Rights and Privacy Act of 1974 as amended. The University will not disclose information that it maintains as part of its normal course of business without the consent of the student. For complete information concerning record release and student access rights, refer to Rules 60 through 68 in the August 2003 Code of Policies and Regulations Applying to All Students. (The Code is available on the Web at http://www.uiuc.edu/admin_manual/code.)

The University has designated certain categories of information as directory information. Students' consent to release this information is implied. A currently enrolled student may instruct the University to withhold directory information by submitting a request form to the Office of Admissions and Records prior to the end of the tenth day of instruction for a term. Regardless of a student's enrollment status, a request to withhold directory information remains in force until the student submits a subsequent request removing the restriction. Forms may be obtained and filed at the Records Service Center, 901 W. Illinois Street.

Directory Information

- The student's name
- Addresses
- Telephone numbers
- Date of birth
- Weight and height, if an athletic team member
- College
- Curriculum and major field of study
- Class level
- Dates of attendance
- Full- or part-time status
- Institutions previously attended
- Degrees, honors, and certificates received or anticipated
- Eligibility for membership in registered University honoraries
- Participation in officially recognized activities and sports
- Appointment information of students with fellowships, assistantships, or graduate or undergraduate hourly employment

If a student has elected to withhold directory information, the University will respond to inquiries as follow: **"No information is available for any student by that name."**

Identification Cards

Each student is issued a permanent photo identification card which must be retained by the student while registered at the University. The ID card remains the property of the University, and any holder who alters or intentionally mutilates a University ID card (including but not limited to punching holes in the card, applying stickers, etc.), who uses the ID of another, or who allows his or her ID card to be used by another may be subject to discipline. A charge of \$20 (amount subject to change) is assessed for replacing each lost, mutilated, confiscated, or stolen photo ID card.

You are required to present your ID card for identification purposes at the request of an agent of the University when the agent is acting in the performance of his or her supervisory or security function (e.g., examination proctor, police officer, residence hall director or adviser, recreational facility supervisor, ticket taker, or usher). You may be subject to discipline if you refuse to provide

your University ID card when requested by an agent of the University.

When performing his or her duties, an agent of the University may confiscate your ID card if an individual other than yourself attempts to use the card to represent him/herself as a duly registered student, if the ID card you present is not valid at the time you attempt to represent yourself as a duly registered student, or if the ID card has been reported as lost, stolen, or replaced.

If you cannot find your ID card, go to the Campus ID Center immediately and complete a Lost/Stolen Property Report.

Questions regarding the issuance of ID cards may be directed to the Campus ID Center, Room 204 Illini Union Bookstore, 809 South Wright Street, or call 244-0135.

Nondiscrimination Statement

The commitment of the University at the most fundamental principles of academic freedom, equality of opportunity, and human dignity requires that decisions involving students and employees be based on individual merit and be free from invidious discrimination in all its forms.

It is the policy of the University of Illinois not to engage in discrimination or harassment against any person because of race, color, religion, sex, national origin, ancestry, age, marital status, disability, sexual orientation, unfavorable discharge from the military, or status as a disabled veteran or a veteran of the Vietnam era and to comply with all federal and state nondiscrimination, equal opportunity, and affirmative action laws, orders, and regulations. This nondiscrimination policy applies to admissions, employment, and access to and treatment in the University programs and activities. Complaints of invidious discrimination prohibited by University policy are to be resolved within existing University procedures.

For additional information on the equal opportunity, affirmative action, and harassment policies of the University, or information on Title IX, ADA, or 504, please contact: for the Urbana-Champaign campus: Associate Chancellor William Berry, Third Floor East, Swanlund Administration Building, MC-304, 601 East John Street, Champaign, IL 61820, (217) 333-4238; or Director Larine Cowan, First Floor West, Swanlund Administration Building (MC-304), 601 East John Street, Champaign, Illinois 61820; (217) 333-0885.

Students with Disabilities

Students with disabilities who have not registered for services with the Division of Rehabilitation Education Services, 1207 S. Oak Street, and who wish to request accommodations for any or all of the classes in which they are registering should contact the coordinator for Student Services with the Division at 333-4602 (voice) or 333-1970 (TTD).

Compliance with State Immunization Law

Each admitted applicant entering the University after July 1, 1989, is subject to the requirements of Illinois Public Act 85-1315, which requires students to provide evidence of immunity to certain vaccine-preventable diseases. All students subject to the provisions of this law have received a copy of the McKinley Health Center Student Health Report Form with their Notice of Admission. Students who fail to return the form by the date shown will not be permitted to register for the next term. Students who fail to comply with state law before the start of the next term are prohibited by law from enrolling in that or any subsequent term.

Health and Safety

Important information about alcohol and other drugs and about campus safety is available at <http://www.uiuc.edu/safety/report/>.

In compliance with federal law, this information describes campus policies and resources to help you manage your health and safety.

Semester Hour Requirements

Undergraduate students are required to pursue a normal program of study, which varies by college and curriculum. More or less than a normal program may be permitted only by authority of the dean of the college or his/her designated representative.

For undergraduate, graduate, and professional students, the minimum program required in a semester for maximum educational benefit payments under the Veterans Readjustment Benefits Act of 1966 and receipt of social security benefits as a dependent is 12 semester hours.

Classification of Students

The Registrar's Office uses only the following definitions in the classification of enrollment:

Full-time Students:

Fall/Spring Semesters 12 or more hours

Half-time Students:

Fall/Spring Semesters 6-11.5 hours

Graduate students with 25%-67% assistantships in fall and spring terms may be classified as full time students if registered for 8 or more hours, or an equivalent combination. Individual programs may set higher requirements.

Class:

Freshmen	0-29.9 hours
Sophomores	30-59.9 hours
Juniors	60-89.9 hours
Seniors	90 hours and above

Graduate students are certified as advancing one year of study if they were registered in two semesters. Graduate students on a consecutive summer-session-only pattern are advanced one year after completion of three eight-week summer sessions. A graduate student may not be certified as having advanced one year more than once within a twelve-month period.

Intercampus Enrollment Program

The Intercampus Enrollment program is intended to allow students at one campus of the University the opportunity to take advantage of opportunities unique to another campus of the University without having to transfer. It is not designed to replace concurrent enrollment or transfer. The program also provides for summer enrollment at another University campus should financial aid be required. For complete information see the Web site at <http://www.usp.uiillinois.edu/InterCamp/InterCampus.html>.

Grades

Grade reports will be posted to your secure web site at www.oar.uiuc.edu/current through the end of the summer 2004 term. Grades for the fall 2004 term will be available on the UI-Integrate Self-Service system at the end of the term under the Registration and Records link. If you do not have access to the web site or you have problems accessing your grade report, contact Registration Services at 244-3216.

Transcripts of Courses and Grades

A student in debt to the University is not entitled to receive a diploma or an official statement or transcript of credits until the indebtedness has been paid or suitable arrangements for payment have been made, unless the student has pending a bankruptcy petition seeking a discharge of all such indebtedness, or such indebtedness has been discharged.

A student who graduates or withdraws from the University and has an outstanding loan from the University of Illinois will not be issued a transcript until he/she has completed an exit interview with the Office of Student Accounts and Cashiers, 162 Henry Administration Building.

The charge for an official transcript is \$5 per copy (amount subject to change).

Transcripts may not be ordered by telephone. They must be ordered using the World Wide Web at <http://www.oar.uiuc.edu/records/transcript.html>, or by mail addressed to the Transcript Department, University of Illinois at Urbana-Champaign, 901 W. Illinois Street, Urbana, IL 61801. A check or money order made payable to University of Illinois must accompany the order. Payment may also be made using Visa, MasterCard, or Discover Card.

Registration in UI-INTEGRATE SELF-SERVICE

You can access UI-INTEGRATE SELF-SERVICE using a web browser from personal computers on campus or remotely from any computer with an Internet connection.

A registration checklist and Schedule Planning Form, included in the *Class Schedule*, will help you develop your schedule before you log on to UI-INTEGRATE SELF-SERVICE.

You will be assigned a Registration Time Ticket indicating the earliest time you may register based on the number of hours completed or in progress, according to campus policy.

Through UI-INTEGRATE SELF-SERVICE you can:

REGISTER and add/drop classes

UPDATE your address and telephone information

OBTAIN a copy of your early registration schedule

Some classes are listed in the *Class Schedule* as requiring approval to register. Contact the department for approval before using UI-INTEGRATE SELF-SERVICE to register in one of these classes.

UI-INTEGRATE SELF-SERVICE will control for registration time; class size, academic program, maximum credit, and holds (if applicable). If a hold has been placed on your record, it must be removed before you can register. You should resolve all holds as soon as possible. If you have a hold on your record as of 5:00 PM the first day of instruction, your course registration for the term may be cancelled. You can avoid having your course registration cancelled by resolving holds early.

Assistance using UI-INTEGRATE SELF-SERVICE will be available at the Records Service Center, 901 W. Illinois Street, from 8:30 AM until 5:00 PM, Monday through Friday. If you need information or assistance using UI-INTEGRATE SELF-SERVICE, contact registration@oar.uiuc.edu or call 333-6565.

Student Responsibility

YOU ARE RESPONSIBLE for knowing and adhering to the policies, deadlines, and procedures in the *Class Schedule*. Careful reading of the various sections of this booklet will help you avoid enrollment problems.

UI-INTEGRATE SELF-SERVICE is the University system to register for courses by computer. When you do so, you agree to pay tuition and fees to the University according to the payment policies and

schedules adopted by the Board of Trustees. If you wish to cancel your registration, and thus avoid payment of tuition and fees charges, you must do so by 5:00 PM of the day prior to the first day of instruction.

Unauthorized use of University of Illinois computer systems, data, or resources; unauthorized use of another individual's identification, account, or password; or an attempt to gain unauthorized access is prohibited by University policy and may constitute a violation of Illinois state law. Access to UI-INTEGRATE SELF-SERVICE will be terminated if you are found to be making excessive unsuccessful registration attempts.

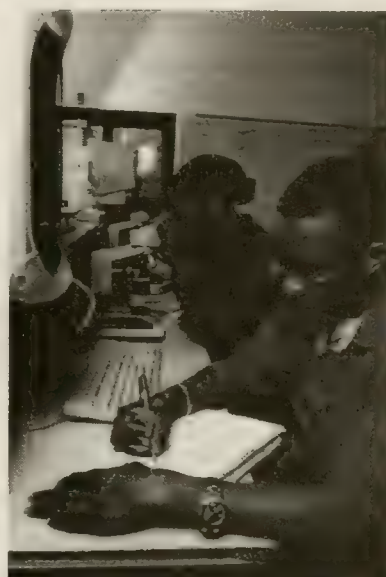

AS AN ENROLLED STUDENT, you are responsible for knowing and complying with the regulations of the University, your college, and the departments offering the courses you are taking, and for fulfilling the requirements for your particular degree. You may obtain the regulations of your college at the college office.

You are expected to conduct yourself at all times in accordance with accepted principles of responsible citizenship and with due regard for the rights of others.

You are advised to obtain a copy of the Code of Policies and Regulations Applying to All Students. That publication is available for inspection at college and departmental offices and libraries, at the Illini Union Information Desk, the Student Organizational Complex in the Illini Union, in the lobby of the Turner Student Services Building, and at the Records Service Center, 901 W. Illinois Street. The Code is also available on the Web (http://www.uiuc.edu/admin_manual/code).

NOTICE

The Family Educational Rights and Privacy Act affords students certain rights with regard to their educational records. See <http://www.oar.uiuc.edu/current/ferpa.html> (Notice of Rights with Respect to Educational Records) for the complete text of the Notification of Rights and page A6 of this document for additional information concerning educational records.

Registration Procedures

Registration Time - Time Ticket

All eligible continuing and re-entry students are assigned a Registration Time Ticket, according to priorities established by campus policy. The Registration Time Ticket is the first time a student can access UI-INTEGRATE SELF-SERVICE registration for the term. You will be able to access your Registration Time Ticket under Registration Eligibility in UI-INTEGRATE SELF-SERVICE. (Contact registration@oar.uiuc.edu if you cannot access your Time Ticket). Within each priority grouping, Registration Time Tickets are assigned in intervals first by student level and then by the number of hours completed or in progress, according to campus policy.

Eligibility to Register

In general, students currently enrolled in Illinois degree programs can register early for the 2004 fall semester. You may **not** register early if you are:

- A part-time nondegree student.
- A student graduating prior to August 2004, unless you have been admitted to an Illinois graduate, professional, or second baccalaureate degree for fall semester 2004.
- A student newly admitted to a university degree program. Information about your initial registration procedures will be included in your Notice of Admission and orientation materials.

Holds

Academic and administrative offices may place holds on your record, cancel your registration, or withdraw you from classes for academic reasons, funds owed to the university, judicial reasons, and for failure to meet medical/immunization requirements. Registration holds prevent any registration activities, including adding or dropping classes. Some holds may also prevent you from receiving transcripts, receiving grades, or processing your graduation requirements in addition to preventing any registration activity.

If you have a hold on your record, resolve it with the appropriate campus office as soon as possible. Holds on your record preventing registration can be viewed within UI-INTEGRATE SELF-SERVICE under Registration Eligibility or View Holds.

Academic advising is recommended for all students and is required in most programs. You are encouraged to meet with your adviser to discuss your plan of study before registering for classes.

An advising hold may be placed on your record if you are in a college/department in which advising is a mandatory prerequisite to registration. In such cases you must complete an advising session before your college/department will clear you to enroll. For additional information on the advising hold, please contact your college office.

Enrollment Requirements and Prerequisites

Many courses carry prerequisites and other enrollment requirements such as "instructor approval," "enrollment limited to majors," "seniors only," "honor students," etc. These requirements are listed with each course and many are computer controlled. You are expected to comply with these prerequisites and enrollment requirements. Failure to do so may result in your being removed from the course. Should you have questions regarding these requirements, please contact the department offering the course.

"Authorization Only" Courses

Some courses require departmental authorization prior to registration. If you are interested in a restricted course listed in the *Class Schedule* you should consult the department offering the course prior to your Registration Time Ticket. If you meet the enrollment requirements for the course, the department will authorize you online to enroll in the course. You, in turn, must register for the course using UI-INTEGRATE SELF-SERVICE.

Linked Sections

Many courses require registration in multiple section types such as a lecture and a lab. If you fail to register for both section types you will receive a "link error" message. This means you need to register for both section types **at the same time**.

Maximum/Minimum Enrollment Levels

The maximum amount of credit in which a student can enroll without special overload approval from his/her college office is:

Fall and Spring Terms

Undergraduates	18 hours
Graduate, Vet Med, Medicine	20 hours
Law	16 hours

Summer Term 1

Undergraduates	4 hours
Graduate, Vet Med, Medicine	6 hours
Law	6 hours

Summer Term 2

Undergraduates	9 hours
Graduate, Vet Med, Medicine	12 hours
Law	6 hours

Should you wish to enroll above the established maximum, consult your college office.

Full-time enrollment for students is 12 or more hours. UI-INTEGRATE SELF-SERVICE will NOT display a warning message if you are not enrolled in a full course load for the term. Enrollment below the minimum may jeopardize your financial aid status, progress towards a degree, or visa status if you are an international student.

College approval is required for undergraduate students to carry a load of fewer than 12 hours.

Credit-No Credit

The credit-no credit grading option is designed to encourage students to explore areas of academic interest that they might otherwise avoid for fear of poor grades. All students considering this option are cautioned that many graduate and professional schools consider applicants whose transcripts bear a significant number of nongrade symbols less favorably than applicants whose transcripts contain none or very few. Likewise, in computing a preadmission grade-point average, some schools may convert the NC symbol to a failing grade because they do not know whether the actual grade was a D or F.

Credit-no credit courses are not counted toward the grade-point average, but are included as part of the total credit hours and are assessed as credit hours.

Instructors are not informed of those students in their classes who are taking work under the credit-no credit option and they report the usual letter grades at the end of the course. These grades are automatically converted to CR or NC. Grades of C- or better are required to earn credit.

The credit-no credit option is not available on UI-INTEGRATE SELF-SERVICE. Should you wish to elect this option, please consult your college office or graduate department.

Policy on Intercollege Transfer

An intercollege transfer applicant is one who is currently registered in an undergraduate college at UIUC and who wishes to be considered for admission to another undergraduate college at UIUC. Intercollege transfer applicants are considered on the basis of the intercollege admission requirements of the new college and availability of space in the chosen programs. This policy does not apply to students in the Graduate College, a professional college, or the College of Nursing.

The campus has designated two periods each term for intercollege transfer. They are:

TWO WEEKS PRIOR to the beginning of the Registration Period for each term. Curriculum changes will not be allowed after registration begins.

ONE WEEK PRIOR to the start of instruction for the term and through the first week of instruction.

If you intend to apply for intercollege transfer, you should do so within these designated time frames. Your access to certain courses is dependent upon your college of enrollment.

Student Health Insurance

The University's Board of Trustees requires that all students be covered by an insurance plan. Therefore, the University provides a Plan for which the fee is automatically assessed along with other tuition and fees

Request for exemption from the health insurance fee, extension of coverage, purchase of dependent coverage, etc., are limited to specific time periods at the beginning of each semester. See Student Health Insurance Plan section in the *Class Schedule* for deadline dates and instructions.

Your Network ID and Password

To access many University computer services, you will use your Network ID and password. All UIUC students are assigned a Network ID and password when they are admitted to the University.

Your Network ID and password are pertinent to registration since you use them the first time you access UI-INTEGRATE SELF-SERVICE, as described on page A14.

If you forget your Network ID password, go to the Account Services area of the CITES Help Desk on the first floor of the Digital Computer Lab between 8:30 a.m. and 5:00 p.m. Monday through Friday to have your password reset so you can resume using your Network ID. (If this is not possible for you, call the Help Desk at 244-7000 or email consult@uiuc.edu in order to make alternative arrangements.)

If you have questions or concerns about your Network ID and password, contact the CITES Help Desk. More information on the Help Desk is available at <http://www.cites.uiuc.edu/help/>.

locations to register

Locations - Where Can I Register?

UI-INTEGRATE SELF-SERVICE registration can be accessed from the following locations:

CITES Public Sites

(The hours of these sites may vary from term to term.)

English Building, Room 8	244-0386
Illini Union, Room 189	244-7935
1203 1/2 W. Nevada, Room 100	333-4371
901 W. Oregon, Room 105	244-7513
Undergraduate Library, Rm 289	244-2562
Wohlers Hall, Rms 70A and 70B	333-4500

For a complete list of CITES Instructional Computing Site locations, equipment, services, and hours, see <http://www.cites.uiuc.edu/isc/>.

College-Designated Computer Labs

Some colleges have designated additional sites for registration for use by majors in their colleges.

Agriculture	204 Ornamental Horticulture Building
Aviation	Building Q4, Willard Airport
Business	OIM Lab (basement) David Kinley Hall
Communications	Gregory Hall RM 9 RM 14A RM 18A RM 18D RM 18E RM 27 RM 31
Education	10 Education Building
Engineering	Engineering Workstation Labs 408 Engineering Hall 252 Everitt Lab 343 M E Laboratory 57 Grainger Library, 4th Floor
Law	40 Law Building
LIS	2A Library Information Science Building
Medicine	280 Medical Sciences Building
Nursing	280 Medical Sciences Building
Social Work	21 School of Social Work
Vet Med	Vet Med Basic Science Building RM 2281 RM 2271J Small Animal Clinic RM 240

For additional information on the availability of college sites, please contact the site staff or your college office.

University Residence Hall Computer Labs (closed during the summer)

University Residence Hall Computing Facilities are available to students living in the residence halls. Access to UI-INTEGRATE SELF-SERVICE Registration is available from Macintosh computers at these sites:

Allen	Adjacent to lower lobby
Busey-Evans	Evans 10
Clark	Room 45
Florida Avenue	Room 9
Gregory Drive	Adjacent to Forbes Main Lounge
Illinois Street	Townsend 28
Lincoln Avenue	Adjacent to North Rec Room
Peabody Drive	Weston tunnel area
Pennsylvania Ave	Babcock Lounge
Sherman	Room 40
Taft-Van Doren	Adjacent to Main Lounge

UI-INTEGRATE SELF-SERVICE Registration Checklist

☐ Meet with Your Adviser

ACADEMIC advising is recommended for all students and is required in many programs.

DISCUSS with your adviser alternative course selections in case your first choice offerings are full or unavailable to you.

COMPLETE the Schedule Planning Form (located in the back of the Class Schedule) as a guide.

☐ Prepare for Enrollment Restrictions that May Be Placed by Departments

Consent Instructor/Authorization Required:

If you plan to select courses requiring consent of instructor or departmental approval, contact the department offering the course to obtain permission PRIOR TO registering via UI-INTEGRATE SELF-SERVICE. Approval to register in AUTHORIZATION ONLY courses is entered into the UI-INTEGRATE SELF-SERVICE system online by the department offering the course. You, in turn, must register for the course using UI-INTEGRATE SELF-SERVICE.

Independent Study Courses:

Independent study courses require the instructor's permission before registering. If you select an independent study course, obtain permission from the instructor PRIOR TO registering via UI-INTEGRATE SELF-SERVICE.

Courses with Prerequisites:

Many courses have prerequisites. The prerequisites are intended to help you succeed in the course. You are expected to comply with them. You may be removed from a course for failure to comply with the prerequisites.

Courses with Restrictions:

Some courses have restrictions which limit registration to students meeting certain criteria, e.g., college, curricula, year in school, honors, or placement test scores. Many restrictions are computer controlled. You may be removed from a course if you do not meet the course criteria. Consult the department offering the course if exceptions to these restrictions are required.

☐ Clear Registration Holds

IF YOU HAVE any registration holds on your record, that information will appear on the View Holds page or the Registration Eligibility page in UI-INTEGRATE SELF-SERVICE.

ALL holds must be cleared online by the appropriate academic or administrative office before you can register using UI-INTEGRATE SELF-SERVICE.

☐ Register from a Computer on Campus or from a Remote Location

With the previous steps completed, use your Schedule Planning Form (located in the back of the Class Schedule) as a guide to register in courses via UI-INTEGRATE SELF-SERVICE. There are many places on campus where you can conveniently access UI-INTEGRATE SELF-SERVICE. Many of these locations are listed in the Class Schedule. You may register from any location where you can access the World Wide Web, provided your registration time ticket for the term is valid.

☐ Register for a Complete Schedule

YOU ARE advised to register for a complete schedule of courses for the term as soon as possible following your Registration Time Ticket.

ALTHOUGH additional seats may become available in a few courses, and additional sections may be added to some courses prior to the start of the term, you should not delay completing your schedule based on the assumption that seats will eventually become available in courses that have closed.

COMPLETE a workable course schedule early, even if every course is not your first choice.

☐ Verify Your Addresses

YOU ARE required to provide a mailing and a permanent address. You may do so by accessing the Personal Information link on UI-INTEGRATE SELF-SERVICE.

MAKE CERTAIN that your mailing and permanent addresses are correct so you don't miss any important information from the University.

Continuing students should also check that corresponding address information is current in UI DIRECT through October 2004.

☐ If you expect to receive your degree at the end of the term . . .

BE SURE to select "Graduation Information" to add yourself to the Pending Degree List if you plan to graduate at the end of the semester.

UI-Integrate Self-Service Registration Instructions

Obtain Enterprise ID and NetID Passwords

First-time users must get their Enterprise ID and NetID Password before logging in to UI-INTEGRATE SELF-SERVICE. On your computer, access the Bluestem Password Reset website: <https://webprod.admin.uillinois.edu/eas/servlet/EasBluestemReset>.

Step 1: Log in using your Campus NetID (for example in your email address, "XXXXXX@uiuc.edu," "XXXXXX" is your NetID) and Bluestem (NetID) password.

Step 2: After logging in, choose a new Enterprise password. Your password must meet the following criteria:

- The password must contain at least one (1) UPPER CASE letter.
- The password must contain at least one (1) LOWER CASE letter.
- The password must contain at least one (1) numeric DIGIT: (0,1,2,3,4,5,6,7,8,9).
- The password cannot contain any four (4) consecutive characters of your network account (username), also known as: NetID, LogonID, EnterpriseID.
- The password must be at least EIGHT (8) characters long.
- The password cannot be changed to any of your three (3) previous passwords.
- The minimum user-defined password life is one (1) day.
- The password cannot contain any dictionary word greater than or equal to four (4) characters.
- The password will expire annually.

Need help?

Call the AITS Help Desk at 333-3102 or e-mail Helpdesk2@uillinois.edu.

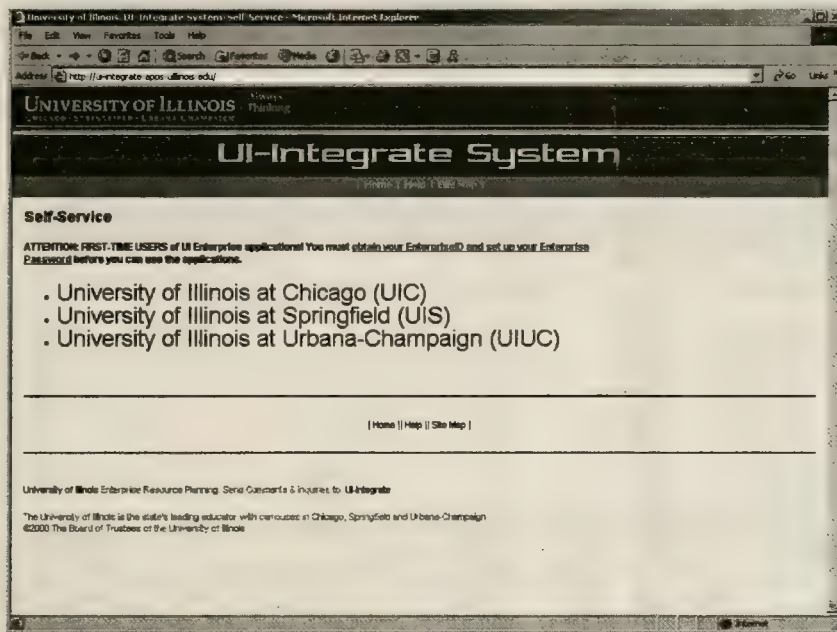

IMPORTANT NOTICE

Access to UI-INTEGRATE SELF-SERVICE will be terminated if you are found to be making excessive unsuccessful registration attempts. The department office should be consulted if you need assistance in adding a particular course.

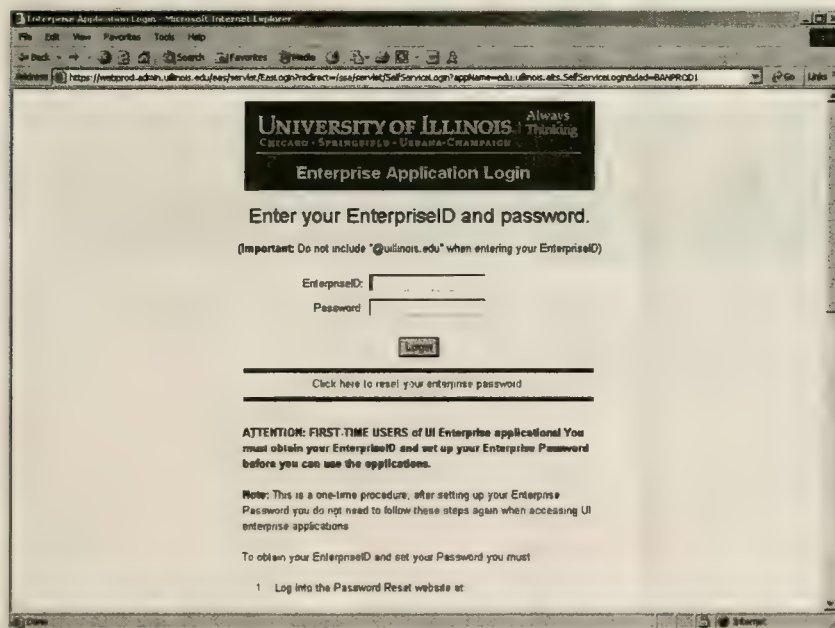

Logging in to UI-INTEGRATE SELF-SERVICE

The page below is located at <https://ui-integrate.apps.uillinois.edu> and is the first page you will see when logging in to UI-Integrate Self-Service.

- Select the campus where you have been admitted and intend to enroll:

- Once you have selected your campus, you will be required to enter your Enterprise ID and password:

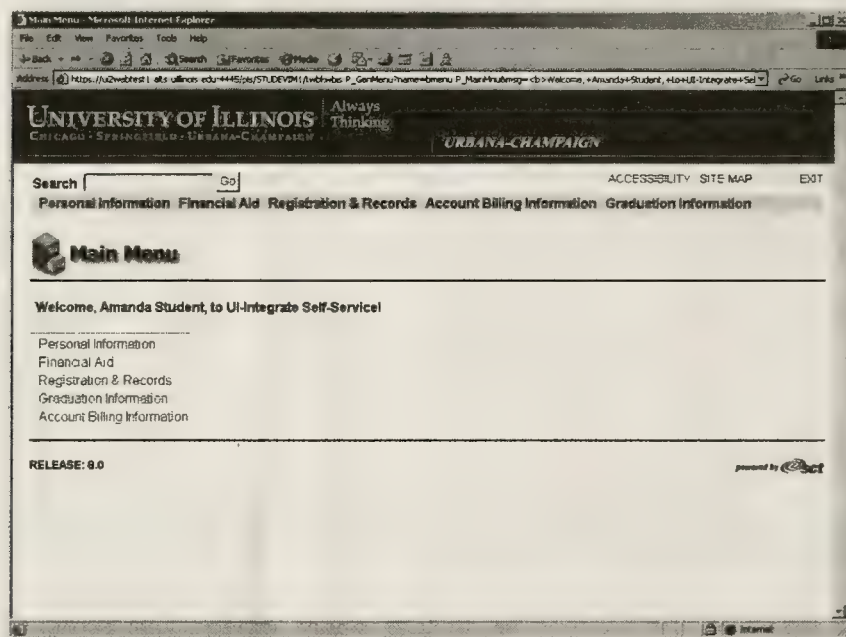

Now, you are ready to begin UI-INTEGRATE SELF-SERVICE Registration.

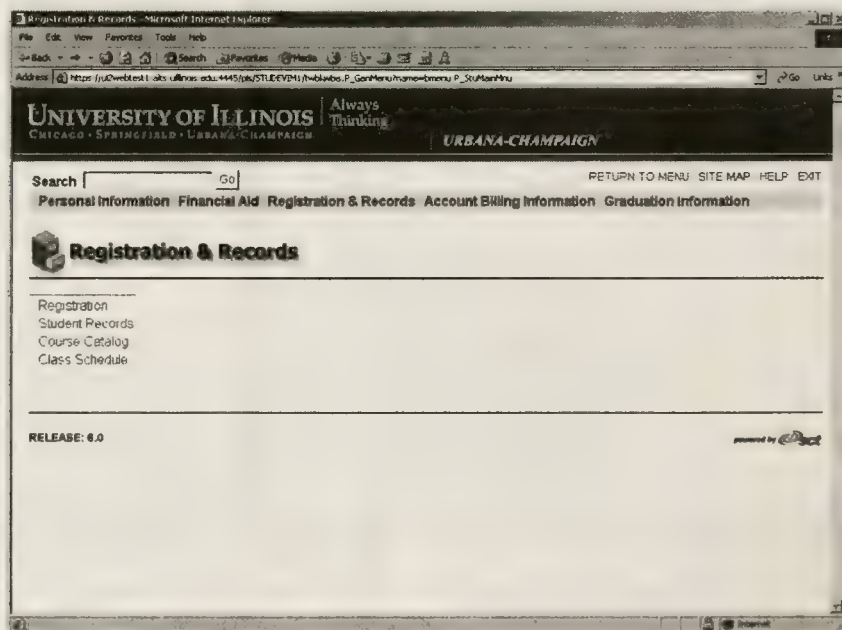

Begin UI-INTEGRATE SELF-SERVICE Registration

1. After you login to UI-Integrate Self-Service using your Enterprise ID and password, the first page you will see is the **Main Menu** page that welcomes you to the system and displays the menu options available to you:

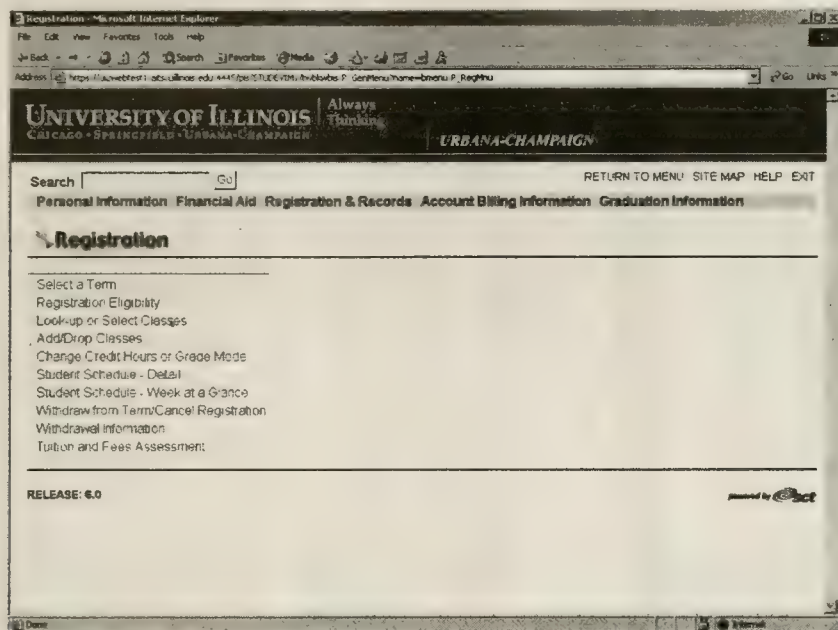

- Select "Registration & Records" to begin registration.
- Select "Personal Information" to verify or change your contact information.
- Select "Graduation Information" to add yourself to the Pending Degree List if you plan to graduate at the end of the semester.

2. The **Registration & Records** page shows the registration menu options that are available to you now. Additional menu options will be activated periodically during the implementation of the UI-Integrate Self-Service System. Most pages include a "HELP" link located in the top right corner of the page that will contain additional information to guide you through the system. To proceed directly to the registration pages, select "Registration."

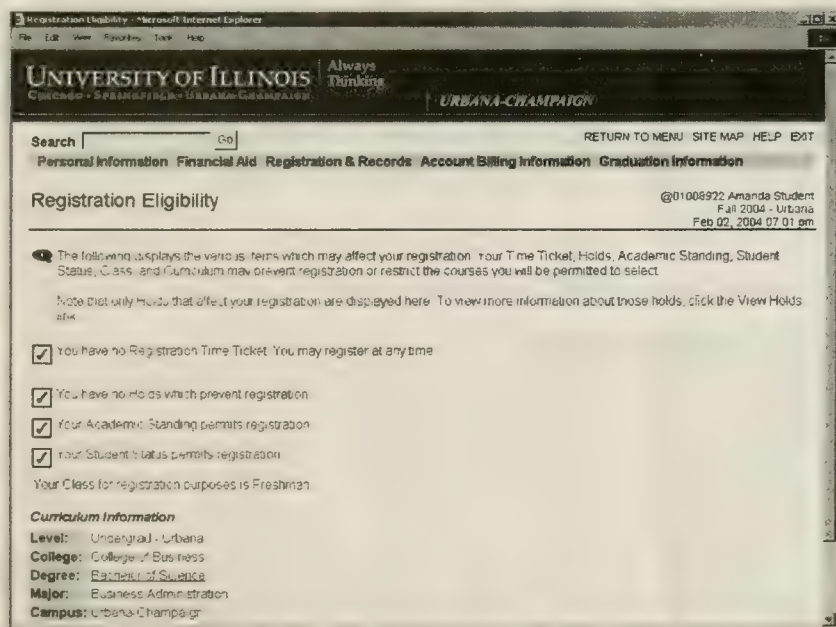

3. The **Registration** page lists menu options available to help you register for class sections. Before you attempt to register, select "Registration Eligibility."

4. The **Registration Eligibility** page lists important information about your ability to register for classes. If you are not eligible to register, specific information on this page will describe why you are not authorized to register. This page lists:

- **Your Time Ticket** (the earliest time you are authorized to register).
- **Holds** on your record that prevent registration activity. You will not be permitted to add or drop classes if you have a registration hold.
- **Your Academic Standing** (if you are on probation, your registration may be limited).
- **Student Status** (if your status is not active to permit registration, contact the Office of Registration and Records for assistance).
- **Class** (for example, enrollment in some classes may be limited to juniors or seniors).
- **Curriculum** (your degree, college, major).

5. To begin registration, **Select a Term**. Select a term for the campus where you intend to enroll. If the term description contains "View Only", it means that registration has not yet opened for this term, but you may still view classes offered for this term.

The screenshot shows a web browser window with the URL https://uiwebtest1.sbs.uiowa.edu/4445/ply/STUDY/01/bwv97b_P_SelectTerm. The page header includes the University of Illinois logo and navigation links: Personal Information, Financial Aid, Registration & Records, Account Billing Information, and Graduation Information. The main heading is "Select a Term". Below it, there is a message: "Select a term for the associated campus from the pull-down list." A "Select a Term:" label is followed by a pull-down menu. A "Submit" button is at the bottom. The user is logged in as "Amanda Student" with the date "Feb 02, 2004 06:44 pm".

6. Once you have selected a term and you are authorized to register, you can begin registering for classes.

- Select "Look-up or Select Classes" if you want to search for classes to add.
- Select "Add/Drop Classes" if you know which specific *Course Reference Numbers* you wish to add. A Course Reference Number (CRN) is a five-digit number sequence that represents a specific class section.

The **Look-up or Select Classes** page allows you to enter multiple search criteria to narrow your search. Click "Submit" at the bottom to begin a search for classes using your criteria.

The screenshot shows a web browser window with the URL https://uiwebtest1.sbs.uiowa.edu/4445/ply/STUDY/01/bwv97b_P_SelectTerm_Data. The page header includes the University of Illinois logo and navigation links: Personal Information, Financial Aid, Registration & Records, Account Billing Information, and Graduation Information. The main heading is "Look-Up or Select Classes". Below it, there is a message: "Use the selection options to search the class schedule. You may choose any combination of fields to narrow your search, but you must select at least one Subject. Click the Class Search button when your selection is complete." The form includes fields for Subject (with a pull-down menu), Course Number, Title, Credit Range (with a range selector), Part of Term (with a pull-down menu), Session (with a pull-down menu), and Attribute Type (with a pull-down menu). The user is logged in as "Amanda Student" with the date "Feb 05, 2004 09:51 pm".

7. Your class search results are displayed on the **Look-Up or Select Classes Results** page, allowing you to view class information and availability. If no classes are returned from your search, you may need to adjust your search criteria. A "C" will appear under the "Select" column if a class section is closed. NOTE: *If you select "Add to Worksheet," you will not be registered until you submit your registration worksheet.*

• To add a class, check the box in the “Select” column for section you want to add, then click the “Register” box at the bottom of the page.

8. If you know in advance which specific *Course Reference Numbers* (CRNs) you wish to add, select "Add/Drop Classes." CRNs are five-digit number sequences representing specific class sections. On the **Add/Drop Classes** page, you can add classes by typing in one or more CRNs, and then click "Submit Changes" at the bottom of the page. If you are unable to register for a class, an error message will describe the reason you could not register. **NOTE:** *Be sure to enter CRNs starting in the left-most box. If you skip the first box, the registration system will think you didn't enter any CRNs.*

Add/Drop Classes

@01008922 Amanda Student
Fall 2004 - Urbana
Feb 02, 2004 07:00 pm

The Current Schedule section displays classes for which you are already registered. In this section, you can drop a class or add yourself to a wait list for a class by selecting the corresponding option from the Action pull-down list. Hyperlinked information may be changed.

The Add Classes Worksheet section allows you to enter CRNs for classes you want to register. When entering CRNs, start with the box on the left.

The Registration Errors section will display any registration errors that have occurred. For more information on registration errors, click the HELP link.

Before dropping classes, be sure you understand the possible consequences. You may be required to maintain full-time status as part of your program requirements. Dropping below full-time status may impact your financial aid. International Students should contact their International Student office for information and requirements regarding full-time status. [Click Dropping Classes](#) for more information.

Add Classes Worksheet

CRN#

Submit Changes Class Search Reset

9. You may also drop a class on the **Add/Drop Classes** page. To drop a class, select "Drop" from the drop-down menu listed below the "Action" column for a specific class you wish to drop, then click the **Submit Changes** button at the bottom of the page.

Before dropping classes, be sure you understand the possible consequences. You may be required to maintain full-time status or a certain number of credit hours as part of your program requirements. Dropping below full-time status may impact your financial aid. International Students should obtain permission from their International Student office before dropping classes. Select "Dropping Classes" on the **Add/Drop Classes** page for more information on program requirements.

You will not be permitted to drop your last class for the term. If you wish to drop all of your classes, select "Withdraw from Term/Cancel Registration" from the **Registration** menu for instructions. **NOTE: Unlike UI-Direct, UI-Integrate Self-Service has no "Exchange" function. You cannot exchange one section for another.**

Part-Time, Late, and Visitor Registration

Part-Time Nondegree Registration

If you are a part-time nondegree student, you may register between Tuesday, August 31 and Wednesday, Sept. 8. To register, follow the instructions for late registration. Part-time nondegree students who register on these dates will not be charged the late registration fine.

Late Registration

CONDUCTED VIA UI-INTEGRATE SELF-SERVICE from Thursday, Aug 26, until Wednesday, Sept 8. To complete late registration during this time period, follow the prior instructions in the *Class Schedule* beginning at "UI-INTEGRATE SELF-SERVICE Registration Checklist."

Students registering on or after Thursday, Sept 9, lose the privilege of using UI-INTEGRATE SELF-SERVICE. Beginning Sept 9, after you have met with your adviser and secured any required course and college approvals and clearances, bring your completed Late Registration Form to the Records Service Center, 901 W. Illinois Street to complete registration.

WARNING: Very late registrants are reported to lenders of student loans as NOT REGISTERED until mid-term.

There is a penalty for registering late. You will be assessed a late registration fine of \$15 (amount subject to change) unless you are registering as a visitor.

Registration of Visitors

A visitor is only a listener in a class and may not participate in any class activities. Visitors are not permitted in laboratory, military, kinesiology (other than theory), or studio classes. Students on "dropped" status are not eligible to attend classes as visitors.

To register as a visitor, written approval is required on an official Visitor's Permit available either at the Records Service Center, 901 W. Illinois Street, or at your college office. After obtaining the form, proceed according to one of the following conditions:

IF YOU ARE a currently enrolled student: Obtain permission from the instructor of the class and the approval of the dean of your college.

IF YOU ARE a former student not currently registered: Obtain the approval from the instructor of the class and the dean of the college in which you were last registered.

IF YOU HAVE not been previously registered at the University: Obtain the approval from the instructor of the class and the dean of the college in which the course is offered.

IF YOU ARE a staff employee of the University: In addition to obtaining other required approvals, you must secure the recommendation of the head of the department or unit in which you work.

After obtaining all required approvals on the Visitor's Permit form, bring the form to the Records Service Center, 901 W. Illinois Street to complete registration.

Registration-Related Services

Personnel will be available to answer questions and provide assistance at the following locations on the dates listed below:

Financial Aid

620 E. John Street 9:00 AM–5:00 PM

Health Insurance Fee (exemption, reinstatement, dependent coverage, vision and dental, or extension of coverage): 333-0165

Aug 25–Sept 23 407 Illini Union 9:00 AM–4:30 PM
Claims Suite 480, Illini Union
Bookstore Building
(807 S. Wright) 8:30 AM–5:00 PM

ID Cards (new or replacement)

Aug 9–Aug 27 210 Illini Union 9:00 AM–5:00 PM M-F
Other dates Illini Union Bookstore
(2nd floor) 9:00 AM–5:00 PM M-F

Tuition and Fee Assessment; Appointment Waivers

Records Service Center, 901 W. Illinois Street
8:30 AM - 5:00 PM

Tuition and Fees

Registration Charges, Payments, and Refunds

Waivers and Exemptions

If you receive a waiver, you are assessed the amount of the charge but the amount is waived by University policy. Because you were assessed the charge, you are eligible to receive the benefits of the service provided by that charge.

If you are exempt from a particular charge, that charge is not assessed and therefore you are not eligible to receive the benefits of the services provided by the charge. If you have an exemption from any charge because you are registered in Credit Range IV, (law students Credit Ranges III, IV) you may obtain the benefits of the service provided by making individual arrangements. (See "Fees and How They Are Determined.")

Tuition and fee waivers are not granted for the Executive MBA or other full-cost programs. Detailed information on tuition and fee waivers and exemptions is published in the *Code of Policies and Procedures Applying to All Students*, which is available on the Web (http://www.uiuc.edu/admin_manual/code).

If you believe that you qualify for any of the waivers or exemptions, consult the staff at the Records Service Center, 901 W. Illinois Street.

Tuition and Fee Assessments

Tuition rates are determined by the University Board of Trustees. Assessment is based on your college and your class, curriculum of enrollment, your residency classification, and your credit range.

College of Enrollment

Your tuition rate is based in part on whether you are an undergraduate, graduate, or professional student. All students enrolled in engineering, chemical and life sciences, fine and applied arts, and business curricula are assessed a tuition surcharge.

Because the Professional Veterinary Medicine Program requires a full course of study each term, students in that curriculum are assessed a single tuition rate for each of the four years of the program.

Information about tuition rates for students in flight training, study-abroad, Executive MBA, and other special-cost programs may be obtained at the Records Service Center, 901 W. Illinois Street, registration@oar.uiuc.edu, or by calling 217-333-0210.

Residence Classification

Another factor in determining your tuition rate is your residence classification (resident or nonresident of Illinois as defined and determined according to regulations approved by the University Board of Trustees). Your classification is based on information you provide on your admission application and other credentials. Residency rules are available on the Web (<http://www.uoapa.uiillinois.edu/residency.html>).

To request a change in your residency classification, obtain a petition at the Records Service Center, 901 W. Illinois Street. You must submit the petition by September 30. If you fail to submit a petition within the allotted time period, you lose all rights to a change in status and adjustment of your assessed tuition for the term. Telephone (217) 244-3216 for additional information.

Fees and How They Are Determined

The fee schedule is fixed by the University Board of Trustees and is calculated on the basis of the number of semester hours or units of credit for which you are registered. Fees to be assessed this semester are:

General Fee: A mandatory fee comprised of debt service, facility renewal and replacement funds, campus administrative charges, and general University overhead charges; distributed to auxiliary service units (Assembly Hall, Athletic Facilities, Campus Recreation, Career Center, Counseling Center, Illini Union, McKinley Health Center, and Student Services & Arcade Buildings).

Service Fee: A fee composed of categories for salaries, programming, general expenses, and utilities; distributed to auxiliary service units (Assembly Hall, Campus Recreation, Career Center, Illini Union, and Student Services & Arcade Buildings). *(Students exempt from this fee because they are registered in Credit Ranges III & IV may obtain the services by paying the fall semester fee at a cashier's window in 100 Henry Administration Building by no later than 4:00 PM, Sept 22, 2004.)*

Health Service Fee: A mandatory fee assessed to all students for salaries, programming, general expenses, and utilities; distributed to the Counseling Center and McKinley Health Center. *(Students exempt from this fee because they are enrolled in Credit Ranges III & IV may obtain the services by paying the fall semester fee at the McKinley Health Center Business Office by no later than 5:00 PM, Sept 22, 2004.)*

Health Insurance Fee: A fee which covers the cost of premiums to the insurance carrier and the cost of administering the group sickness and accident plan.

Transportation Fee: A fee which supports a campus and community transportation plan for students. *(Students exempt from this fee because they are enrolled in Credit Ranges III & IV may obtain the services by paying the fall semester fee at the Division of Campus Parking by no later than 5:00 PM, Sept 22, 2004.)*

Flight Training Fee: Charged each student enrolled in flight training courses in addition to regular tuition and fee registration charges; based on the nature of each course.

Krannert Fee: A refundable fee which supports programming at the Krannert Center for the Performing Arts.

SEAL Fee: A refundable fee which supplements existing financial aid for students with financial need.

SORF: A refundable fee which supports the Student Legal Service, Tenant Union, and registered student organizations.

Cultural Programming Fee (CP): Refundable, supports cultural programming sponsored by the African American Cultural Program, La Casa cultural Latina, and the Native American House.

Cleaner Energy Technologies Fee (CET): Nonrefundable; used to purchase cleaner energy technologies for campus including solar, wind, hydrogen and geothermal projects, energy efficiency purchases, and the purchase of renewable energy from non-university producers.

Students exempt from KCPA, SEAL, SORF, CP, and CET fees because they are registered in Credit Ranges III & IV may participate in them by paying a \$24 fee at a cashier's window in 100 Henry Administration Building by no later than 4:00 PM, Sept 22, 2004. The charge will cover all five fees which may not be purchased separately.

For refund dates on all refundable fees, see "Refund of Special Fees."

Tuition and Fees Billings and Payments

Billings and payments for all registration charges, plus for University-operated housing, occur after classes begin. Billing is done on a statement, which itemizes all registration charges, financial aid administered by the University, financial aid from external agencies (ISSC, VA, etc.), and any cash aid for which you are eligible. The statement also contains the date by which either full payment or the first payment on the installment plan (if approved) must be made. The availability of statements and the payment deadline dates are determined by when you register.

If you have classes on your record by the end of the first day of instruction (August 25), your statement will be mailed to your mailing address the first week of September. If your statement does not arrive by the 15th of that month, please visit our website (www.oba.uiuc.edu/osac/) and view your student account balance and detail online. Fall semester payment will be due on September 23, 2004. **IT IS YOUR RESPONSIBILITY AND OBLIGATION TO PAY YOUR REGISTRATION CHARGES BY THE DUE DATE WHETHER OR NOT YOU RECEIVED A STATEMENT AT YOUR MAILING ADDRESS.**

Your statement will be mailed to the mailing address you provide through **UI-INTEGRATE SELF-SERVICE**. If you would like to request that your statement be sent to an alternate billing address, please e-mail your request with the address information to studentaccounts@uiuc.edu. You may make payment by U.S. Mail, registration drop boxes (located in the Illini Union and in the Henry Administration Building), in person at a cashier's window in 100 Henry Administration Building, or online at www.oba.uiuc.edu/osac/.

Payment Instructions

Fall semester payment will be due on September 23, 2004.

PAY ONLINE with an American Express or Discover credit card, or by electronic withdrawal from your checking or savings account. Visit www.oba.uiuc.edu/osac/ for more details.

DROP YOUR PAYMENT in the special registration drop boxes located in the southwest entrance of the Illini Union and the east and west entrances of the Henry Administration Building. Please **DO NOT** use campus mailboxes and **DO NOT** put cash payments in the drop boxes.

MAIL YOUR PAYMENT via U.S. Mail. Please allow at least **FIVE** days for delivery and **DO NOT** send cash through the mail.

PAY IN PERSON at the cashier's desk located in room 100 of the Henry Administration Building. Cash, check, and money order payments are accepted in person. Debit card payments are accepted at Window A, also located in room 100 of the Henry Administration Building.

Can I pay by installment? An installment plan for paying tuition, fees, and single-student residence hall charges is available to students enrolled on campus. **This privilege is not extended to registration in extramural, correspondence, and Summer Term 1 courses, or to students to whom the privilege has been denied.**

Charges for the fall semester are collected in three installments; the first payable by the due date shown on the original statement, and the remaining installments payable in October and November.

Taxpayer Relief Act of 1997

Several new tax benefits became available to eligible students and their families with the enactment of the Taxpayer Relief Act of 1997. This legislation grants eligible taxpayers a tax credit for qualified higher education expenses. Two of those credits are the Hope Scholarship Credit and the Lifetime Learning Credit.

The University of Illinois' Web site contains information about the Taxpayer Relief Act including information from the Internal Revenue Service (IRS). For a full explanation of the tax credits, visit www.uoapa.uillinois.edu/TRA.

Important: Please note that only the IRS or a tax professional can provide tax advice on this legislation. Contact one of these resources if you have questions about the law. The University cannot provide tax information or advice.

Student Health Insurance Plan

The University provides and administers a health insurance plan which is mandatory for those students who have not provided proof of other equivalent health insurance coverage by the semester deadline. The fee for the plan is assessed along with other tuition and fees; tuition and fee waivers do not apply to the student insurance fee. Coverage is worldwide and extends, including breaks, from the first day of the semester (Summer 2 is a semester) to the first day of the following semester. The insurance plan is independent of McKinley Health Service and benefits are not contingent upon McKinley Health Service referrals. Benefits are detailed in the Student Health Insurance Plan booklet which is available at the Student Insurance Office at 807 South Wright, Suite 480, Champaign, IL 61820; (217) 333-0165, or on the Web at www.si.uiuc.edu. See below for information and instructions regarding fee exemption, dependent coverage, etc.

Fall Semester Health Insurance - Enrollment Change Period:

Aug 25–Noon, Sept. 23, Rm 407 Illini Union

All Student Insurance transactions **must be** accomplished by the **Insurance Deadline** either in person or by U. S. Mail to the Student Insurance Office located at 807 S. Wright, Suite 480, postmarked on or before the Insurance Deadline. Visit our Web site at www.si.uiuc.edu to download required forms, or call (217) 333-0165. Requests made by any other means will be invalid and will result in missing the deadline.

Purchase Health Insurance for Spouse and/or Children

DEPENDENT COVERAGE: If you are enrolled in the Student Insurance Plan, you can apply for Dependent coverage for your spouse and child/children. Rates depend on class status. Dependent coverage must be purchased each semester during the Enrollment/Change Period. Forms can be obtained in person at 807 S. Wright, Suite 480, or by downloading them from our Web site at: www.si.uiuc.edu. Premium is required at time of application. We accept payment by Visa, MasterCard, Discover and/or check and cash. ID is also required.

Dependents insured the prior semester will have no lapse in coverage provided the application and premium are received during the enrollment change period.

Dependents acquired (marriage, birth, entry into U.S.) after the above enrollment period may be added to coverage provided application is made and premium paid within 31 days of the eligibility date (date of marriage, birth, or entry into U.S.). Coverage becomes effective on the date of eligibility. Payment of a full semester's premium for the semester in which the eligibility date occurred is required.

Coverage Extensions beyond Last Semester Enrolled and Insured

INSURANCE COVERAGE ends on the beginning date of the next semester; however, it can be extended for the next school period if an Extension is purchased by the semester deadline. For example, if you were a student and insured for Spring and will not be a student in the Summer Term 2, coverage will not continue through Summer Term 2 unless you elect to purchase a Summer 2 Extension.

EXTENSIONS for fall semester may be purchased beginning July 15, 2004, at the Student Insurance Office or in Rm. 407 Illini Union, from Aug 25, through Sept. 23, 2004.

THE PREMIUM is payable at time of application.

Exemption from Health Insurance Fee

PETITIONS for exemption must be completed in person or postmarked through the U. S. Mail to the Student Insurance Office, 807 S. Wright, Suite 480, during the Enrollment Change Period identified above. See our Web site at www.si.uiuc.edu to download necessary forms. Application and Proof of other equivalent insurance must be provided.

EQUIVALENT INSURANCE means the health insurance plan you are using to exempt yourself from the Student Insurance fee, must have a minimum of \$150,000.00 coverage per injury or illness, and it must cover expenses (at least 80/20 of Usual/Customary fee or actual charge, whichever is less, for both inpatient and outpatient expenses with a plan year maximum deductible of \$500.00. This plan must be in effect prior to the first day of coverage of the Student Insurance Plan in the semester the exemption is being requested and stay in force while the student is in an exempt status.

AN EXEMPTION will automatically continue until reinstatement to the plan is requested (see Reinstatement below) or if you do not respond to a periodic request to confirm that you continue to be covered by another health insurance plan, or three consecutive semesters of non-registered status. Summer Term 2 is a semester.

Reinstatement

Students exempt from the plan who want to be reinstated to the Plan, can apply in one of two ways.

(1) CHANGE OF STATUS REINSTATEMENT

Students may apply by providing proof of loss of other insurance; i.e., notice of termination of insurance from the insurance company or employer, within 45 days of such loss of other insurance. Enrollment is guaranteed with coverage effective on the date of application or date of termination of other insurance whichever is later. Application must be made in person at the Student Insurance Office. The fee will be billed to you on your student account.

(2) OPEN ENROLLMENT REINSTATEMENT

Students requesting reinstatement more than 45 days after the loss of other insurance, or if no loss of other insurance has occurred, must apply during the Enrollment/Change Period. This is the only time during the Summer Two Session a student can reinstate by Open Enrollment. A 12 month pre-existing condition clause will be in effect. Coverage is effective on the date of application. The fee will be billed to you on your student account.

A full semester premium is required regardless of effective date.

Graduate Student Dental and Vision Assistance Plan

Graduate assistants and fellows who have tuition waivers accompanying their appointments in the fall term will be automatically enrolled for 12 months without charge in the dental and vision plan upon the completion of their appointment papers. All other graduate students, as well as dependents of graduate students and assistants, will be able to enroll in the same basic dental and vision program by completing the necessary enrollment form and paying the annual premium. The fall enrollment period is the same as that for student health insurance, August 25, 2004 - September 23, 2004. Enrollment for the dental and vision plan can be done in room 407 of the Illini Union during this period. A brochure describing the Graduate Student Dental Plan and the Vision Service Plan is available from the Student Insurance Office.

Refunds

Reduction of Program Range

If you reduce your course enrollment to a lower assessment range (e.g., from Range I to Range II), you receive a refund of the full difference between the two ranges, provided the change is made by 5:00 PM, Wednesday, Sept 8, 2004. No refund is available thereafter.

In the case of extenuating circumstances, such as medically documented serious illness or injury, an exception to the refund period may be made by the director of admissions and records, acting on a petition submitted by a student.

In all cases, a student who is enrolled in only one course and who wishes to discontinue enrollment must withdraw from the University by completing the withdrawal process by the stated deadline. (See Withdrawal From the University)

Refund Deadlines

You may be released from your obligation to pay **all** tuition and fees by canceling your registration by 5:00 PM, Tuesday, Aug 24, 2004, the day before instruction begins for the term.

You may be released from your obligation to pay **part** of the tuition and fees by:

REDUCING your program by 5:00 PM, Wednesday, Sept 8, 2004.

WITHDRAWING from the University by 5:00 PM, Friday, Nov 5, 2004.

Refunds of Special Fees (subject to change)

Krannert Fee. A refund of the Krannert Fee is available to those students who do not desire to participate. This refund is available September 27 - October 1.

SORF. A refund of SORF is available to those students who do not desire to participate. This refund is available October 4 - October 8.

CP. A refund of CP is available to those who do not desire to participate. This refund is available October 4- October 8.

SEAL Fee. A refund of the SEAL Fee is available to those students who do not desire to participate. This refund is available October 11 - October 15.

Flight Training Fee. If you withdraw from a flight-training or glider course you will receive a refund of the unused portion of the flight-training, glider, or aviation course fees, upon recommendation of the Institute of Aviation.

Canceling Your Registration

Before the end of the **day before** the first day of instruction, you may cancel your registration and be relieved of all tuition and fee charges. You may cancel your registration in one of the following ways:

ONLINE by using UI-INTEGRATE SELF-SERVICE, no later than 5:00 PM on the **day before** the first day of instruction of the term you wish to cancel. You will not be permitted to drop your last class on UI-Integrate Self-Service. You may drop all but your last class, then use the electronic notification of intent to cancel your registration. This electronic notification is time stamped, and must be submitted no later than 5:00 pm on the **day before** the first day of instruction to be eligible for cancellation.

BY SUBMITTING a request for cancellation of registration to the Office of Admissions and Records. The request must be received no later than 5:00 PM on the **day before** the first day of instruction of the term you wish to cancel. Requests by mail

should be addressed to the Office of Admissions and Records, 901 W. Illinois Street, Urbana, IL 61801.

IN PERSON at the Records Service Center, 901 W. Illinois Street, by 5:00 PM on the **day before** the first day of instruction of the term you wish to cancel.

If you cancel your registration and do not plan to return for a future term, you must also cancel any future courses for which you have registered.

If you either attend a class or use campus services and then wish to leave the University, you must officially withdraw.

Withdrawal from the University

To withdraw, you must follow established withdrawal procedures beginning with completion of a withdrawal form available from the office of the dean of your college or graduate department.

To obtain a partial refund of fall semester registration charges, you must deposit a completed withdrawal form at the Records Service Center, 901 W. Illinois Street, no later than 5:00 PM, Friday, November 5, 2004. No refund is available thereafter. In cases of extenuating circumstances, such as medically documented illness or injury, an exception to the refund period may be made by the director of admissions and records, acting on a petition submitted by a student. Petition forms are available at the Records Service Center, 901 W. Illinois Street.

If you officially withdraw within the refund period, you will receive a pro-rata refund based upon the date on the withdrawal clearance form.

Withdrawal effective date:	Percent of assessed tuition and refundable fees refunded:
Aug 24, 2004	100 percent (cancellation)
Sept 10, 2004	90 percent
Sept 17, 2004	80 percent
Oct 1, 2004	70 percent
Oct 15, 2004	60 percent
Oct 22, 2004	50 percent
Nov 5, 2004	40 percent

Assessed tuition, the service fee, the general fee, and the transportation fee are refunded on a pro-rata basis, less a pro-rata administrative fee of 5% of the assessed amount or \$100, whichever is less. The health insurance and health services fees are not refundable.

If you withdraw, you continue to be covered by health insurance and are eligible to receive health services (if you paid these fees) until the first day of instruction for the next term. Before a refund is made to you, the University must make a refund to appropriate financial aid programs providing assistance to you. If you are indebted to the University at the time of withdrawal, the amount owed will be deducted from the amount of any refund available.

If you are permitted to pay tuition and fees on the installment plan, or if you make no payment at all, and then withdraw from the University, you are liable for the full amount of tuition and fees originally assessed less applicable refunds.

Special refund policies apply to those who withdraw to enter either active duty in the armed forces or other approved national defense service.

Course Listings

The following Class Schedule offered by the University is subject to whatever changes may prove necessary at registration time. Notices of all changes in time or place of meeting of classes will be posted to the online Class Schedule.

Arrangement

The arrangement of subjects in this Class Schedule is alphabetical. The courses offered in each subject are listed numerically with headings to indicate the students for whom they are designed. Courses for undergraduates are numbered 100 to 399; for upper-level undergraduates who satisfy the published requirements, 300 to 499; for primarily graduate students, 400 to 599; for primarily professional students, 600 and above. If a course is for a specific population of students, it will have a clarifying statement after the course description. Following the title of each course is a statement of the requirements, if any, for admission to the course. For reference to UI Direct course numbers, please see the Course Renumbering Crosswalk at the Provost's website (www.provost.uiuc.edu/renumber).

Class Periods

Class periods for each course are indicated by numerals for the hours of the day and by letters for the days of the week. For example, 8-10 MTWR indicates that class periods begin at 8:00 AM and continue for approximately two hours on Monday, Tuesday, Wednesday, and Thursday; 11-1230 TR means that class periods begin at 11:00 AM and continue for ninety minutes on Tuesday and Thursday. Any class beginning after 6:00 PM is indicated by the letters PM. For example, 730-930PM indicates that the class period begins at 7:30 PM and continues until approximately 9:30 PM.

Class Locations

The place of meeting of each class is shown by the number of the room and the name of the building. A listing of the building abbreviations may be found in this *Class Schedule*.

Credit

Credit for courses is counted in semester hours. A semester hour is one class period a week for one semester or the equivalent in laboratory work, fieldwork, or approved independent study. The number of hours for which each course counts is shown under the course.

No course may be taken for graduate credit unless it is so designated in this *Class Schedule* or the online *Class Schedule*. Some courses have variable credit, such as 3 to 5 hours; in registering for a course with variable credit each student indicates the number of hours for which he or she intends to take the course on UI-INTEGRATE SELF-SERVICE Banner screen at the time of registration.

A course may not be taken for zero credit unless such credit is specifically authorized in the *Class Schedule*.

Pending Sections

Pending sections are sections shown in the *Class Schedule*, but not yet open for students to register in. They are identified by the letters "PEND" in the space where the course reference number normally appears.

Departments may open pending sections later, if they have the staff to teach them and enough students enrolled. Once a pending section is opened, its online course reference number appears both as an alternate selection on the registration screen and in the *Class Schedule*.

You cannot enroll in a pending section until it is opened by the department. If you have questions about the possibility of a pending section being opened, please contact the department offering the course.

First-Year Discovery Courses

In the First-Year Discovery Program, entry-level undergraduates can choose from a variety of small, faculty-taught courses that provide an opportunity to interact with faculty and other students from the start. Discovery sections are offered in many formats and disciplines, but all have in common the goal of helping first-year students in the transition to the intellectual community of the campus. All Discovery sections are small, with enrollments limited to twenty students or fewer; all are faculty-taught and interactive.

Discovery courses are listed in the body of the *Class Schedule*, where you can find the complete information needed to register for the courses, including the course reference numbers as well as the lecture/lab/discussion section times and locations, and any enrollment restrictions. Descriptions of the courses and the faculty who will teach them can be found in the Discovery Booklet provided to all new freshmen students when they register during the summer. Course descriptions and faculty bios are also available at <http://www.provost.uiuc.edu/discovery/>.

Registration in the Discovery Program is restricted to first-year students. For a complete list of Discovery Courses, see the separate Discovery booklet, to be distributed at summer orientation.

Campuswide General Education Courses

Courses approved for campus-wide General Education credit are identified throughout the *Class Schedule* using the abbreviations below:

Advanced Composition
Western/Comparat Cult
Cult Non-Western Culture(s)
US Minority Culture(s)
Hist & Philosoph Perspect
Literature and the Arts
Life Sciences
Physical Sciences
Quant Reasoning I
Quant Reasoning II
Behavioral Sciences
Social Sciences

Although all of the courses marked as General Education in the *Class Schedule* are approved on the campus level, they may not satisfy specific requirements in individual curricula. Therefore, campus-wide approval does not guarantee that a course will satisfy the requirements of a specific college or curriculum. Students in teacher education programs must consult the Council on Teacher Education General Education Course List when selecting their courses to meet General Education requirements. All other students should consult their advisors about selecting the General Education courses which best fit their programs of study.

Please note that some courses are part of a General Education sequence and all courses in the sequence must be taken to receive General Education credit.

For General Education requirements and current course lists, see the General Education Web site at <http://courses.uiuc.edu>.

LAS LEARNING COMMUNITIES AT ILLINOIS FOR FIRST-YEAR STUDENTS

For Fall 2004, the College of Liberal Arts and Sciences (LAS) will be offering 66 Learning Communities for first-year students enrolled in the colleges of Liberal Arts and Sciences, Business, and Education. Each of the LAS Learning Communities will have 16-18 first-year students who share their experiences in two academic courses and in a one-hour credit seminar (LAS 100). Registration in a Learning Community reserves for first-year students a place in some of the highest demand first-year courses, and each Learning Community will be able to work each week with an upper-class honors student who has training and experience in study methods strategies which can assist the academic efforts of the first-year students. The department note should carry the following notation:

Section ????: First year LAS Learning Communities Program section. Priority registration will be given to Freshman participants in the LAS Learning Communities Program with some seats available for other students. For a listing of LAS Learning Communities, see the front portion of this *Class Schedule*.

Fall Semester 2004 Noncombined Final Examination Schedule

If a class begins at...	and first meets regularly on...	the final exam is given...
7:00 or 7:30 AM	Any day of the week	Arranged by instructor to avoid conflicts between December 15–20
8:00 or 8:30 AM	Monday	8:00-11:00 AM, Tues, Dec 14
8:00 or 8:30 AM	Tuesday	8:00-11:00 AM, Wed, Dec 15
9:00 or 9:30 AM	Monday	7:00-10:00 PM, Thur, Dec 16
9:00 or 9:30 AM	Tuesday	8:00-11:00 AM, Sat, Dec 18
10:00 or 10:30 AM	Monday	8:00-11:00 AM, Mon, Dec 13
10:00 or 10:30 AM	Tuesday	8:00-11:00 AM, Fri, Dec 17
11:00 or 11:30 AM	Monday	8:00-11:00 AM, Sat, Dec 18
11:00 or 11:30 AM	Tuesday	1:30-4:30 PM, Thur, Dec 16
noon or 12:30 PM	Monday	7:00-10:00 PM, Wed, Dec 15
noon or 12:30 PM	Tuesday	7:00-10:00 PM, Thur, Dec 16
1:00 or 1:30 PM	Monday	1:30-4:30 PM, Tues, Dec 14
1:00 or 1:30 PM	Tuesday	1:30-4:30 PM, Mon, Dec 13
2:00 or 2:30 PM	Monday	1:30-4:30 PM, Sat, Dec 18
2:00 or 2:30 PM	Tuesday	1:30-4:30 PM, Wed, Dec 15
3:00 or 3:30 PM	Monday	1:30-4:30 PM, Fri, Dec 17
3:00 or 3:30 PM	Tuesday	7:00-10:00 PM, Fri, Dec 17
4:00 PM or later	Monday	7:00-10:00 PM, Mon, Dec 13
4:00 PM or later	Tuesday	7:00-10:00 PM, Tues, Dec 14

THE FINAL examination for a course is scheduled according to the full or half hour on Monday or Tuesday on which the class first meets regularly during the semester. For example, if a course meets regularly at 10:00 AM on MWF, the examination must be given from 8:00 to 11:00 AM on Monday, December 13. The final examination for a course meeting regularly on TR from 2:30 to 4:00 PM must be given from 1:30 to 4:30 PM on Wednesday, December 15.

IN A COURSE having a combination of lecture and discussion and/or laboratory periods, the first lecture hour of the week is considered the first contact of the week for purposes of determining examination time. Call 244-0228 with questions about this.

FOR A COURSE not provided for in the examination schedule (i.e., one that meets for the first time on Wednesday or later), an arranged examination is to be given within the established examinations schedule at the discretion of the instructor and at a time to avoid conflicts. A conflict examination must be given if necessary. The instructor must call the departmental office to schedule the room for the examination.

ANY COLLEGE of Education course that meets once a week may need to have a final examination on the same day and at the same time that the class regularly meets. The Office of Facility Management and Scheduling will make room assignments for such courses.

Fall Semester 2004 Noncombined Final Examination Schedule

December 13 Through December 18, 2004¹

This schedule does not apply to courses in the Colleges of Law and Veterinary Medicine, which publish separate schedules.

Illinois law requires the University to reasonably accommodate its students' religious beliefs, observances, and practices in regard to admissions, class attendance, and the scheduling of examinations and work requirements. All regulations governing final examinations will be applied in the context that an individual student's religious beliefs, observances, and practices will be reasonably accommodated if the student informs his or her instructor of the conflict within one week after being informed of the final examination schedule. Any student may appeal in writing an instructor's adverse decision to a request based on religious beliefs, observances, and practices; such appeal must be made to the dean of the student's college or to the director or dean of the student's school or institute (if such school or institute is organized as a separate unit). Before taking action, the dean or director should request that the instructor explain his or her denial in writing.

Requirement

A final examination must be given during the scheduled final examination period for each course except in a course that has a character that renders a final examination unnecessary or impracticable. The head or chairperson of the academic department in which the course is offered determines when a final examination is not required.

Time of Examination

An instructor must give a final examination at the time specified in the published schedule unless a change is approved in advance through the Office of the Provost/Vice-Chancellor for Academic Affairs. A request for change must be submitted through the executive officer of the department or school (if applicable) in which the course is offered and the dean of the appropriate college. **Requests for examination changes should be made only in cases of legitimate need and not just for the convenience of students and instructors.**

A request for change in the examination schedule will not be considered for approval unless the instructor

HAS POLLED the class to determine that an alternative date is desired by a majority of the class members, and

ALSO OFFERS the examination at the regularly scheduled time if some choose not to take it at the alternate time, and,

HAS CONTACTED the Office of Facility Management and Scheduling (244-0228) and has assurance that space is available in which to give the examination at an alternate time, if approved. The Office Facility Management and Scheduling will not confirm space availability for early examinations until the twelfth week of the semester.

No semester final examination should be given during a "regular" class period unless this is deemed necessary by virtue of the course or the examination (e.g., a laboratory "practical" examination as one part of a final examination).

NOTE:

Undergraduate Students: Except as provided for a request based on religious beliefs, observances, and practices, only the dean of a student's college may approve temporary postponement of the final examination in an individual case of an undergraduate student.

Graduate Students: A student's instructor is authorized to approve a request for postponement of the final examination in an individual case of a graduate student.

Place of Examination

An examination will be held in the room where the course meets for the first lecture contact hour of the week, except in the case of a combined-sections examination, an examination for a course in which the instructor has requested additional space for the final examination, or a specifically scheduled examination. Instructors are to announce any special or changed room assignments.

Take-Home Examination

If a take-home final examination is assigned, it is to be submitted by the student at the time and date of the regularly scheduled final examination. An instructor who wishes to depart from this practice, must follow the procedure for changing the final examination schedule as stated elsewhere in this section.

Length of Examination

The maximum limit for an undergraduate final examination shall be three hours, except by special arrangement in individual cases approved by the dean of the appropriate college. At the discretion of the department, a shorter examination may be given.

The 6-year graduation rate for beginning freshmen seeking bachelors degrees who entered school in Fall 1996 is 79.9%. This number is provided by University-wide Student Programs. A complete student right-to-know report may be obtained from the Office of Public Affairs, 601 E. John, Champaign, IL 61820.

¹An examination for a first half-term course should be scheduled at the end of the first half-term period; second half-term final examinations follow the schedule shown on the preceding page. If a first half-term examination is not scheduled in the regular classroom at the time the class usually meets, a special examination room must be reserved through the Office of Facility Management and Scheduling, 333-1230.

Conflicts

Normally in a semester several combined-section, conflict, and noncombined examinations are given at the same time. As a guide to resolving conflicts, an order of priority has been established within each examination period, and a student should resolve a conflict using the published examination schedules and the following priority guidelines.

- 1) National and state professional examinations (e.g., CPA, actuarial science, Architect Registration Examination) take priority over campus final examinations. An instructor must offer a conflict examination to a student scheduled to take national or state professional examination and a campus final examination at the same time.
- 2) A noncombined examination has precedence over combined-sections and conflict examinations.
- 3) Combined-sections examinations have precedence over conflict examinations.

A department offering a combined-sections final examination must provide a conflict examination if required to accommodate student conflicts.

A detailed combined-sections and conflict final examination schedule will be made available to departments on the Web.

Students Having More than Two Consecutive Final Examinations

No student is required to take more than two consecutive semester final examinations. This means that if you take final examinations at 8:00 AM and 1:30 PM on the same day, you cannot be required to take another final examination that same day; however, you are required to take an examination scheduled for 8:00 AM the following day.

Similarly, if you have a final examination at 7:00 PM one day and another at 8:00 AM the next day, you cannot be required to take an examination at 1:30 PM that second day; you can, however, be required to take an examination at 7:00 PM of that second day.

If you have more than two consecutive final examinations scheduled, you are entitled to rescheduling, provided you take the following actions *no later than the last official day of instruction in the semester (December 10)*:

YOU MUST investigate whether a conflict examination is being held at another time for any of the examinations involved. (Instructional staff members are urged to announce any conflict final examinations by the last day of classes.)

IF A CONFLICT examination has been scheduled for any of the courses, you must take one or more of these conflict examinations. If conflict examinations are offered for more than one course, the student must take the conflict for the course that has the largest number of students.

IF NO CONFLICT examinations have been scheduled, you should contact the instructor of the course having the largest number of students. That instructor **must** provide a makeup examination. Remember, you must initiate contact with the instructor involved no later than the last day of instruction.

Discipline for Violations of Academic Integrity

Procedures to be followed in cases of alleged cheating on final examinations may be found in the *Code of Policies and Regulations Applying to All Students*, which is available on the Web (http://www.uiuc.edu/admin_manual/code).

AAS 490 Adv Topics in Asian Am Studies

3 OR 4 hours.

May be repeated. Maximum 6 hours if topics vary. Students may register in more than one section per term. Prerequisite: AAS 100 or any Asian American Studies course, or consent of instructor.

31311 LCD AA 11:00 AM - 12:20 PM TR 109 907/N
Meets with DANC 551 Section ST.

Astronomy

ASTR 100 Perspectives in Astronomy

3 hours.

Credit is not given to students with credit in ASTR 121 or 122; not open to students with credit in PHYS 212, or equivalent. Students with credit in PHYS 211 are encouraged to take ASTR 210.

Physical Sciences course. Students interested in ASTR 100 should also consider ASTR 121 or ASTR 122 which cover the same materials and topics but in two semesters instead of one. ASTR 121 and ASTR 122 include two lectures each week and one weekly small discussion meeting for more individual attention. ASTR 121 and ASTR 122 are independent offerings and can be taken in any order. While ASTR 100, ASTR 121 and ASTR 122 are for non-science majors, problem solving with basic algebra is required. Science and astronomy majors should take ASTR 210.

31278 LEC 1 11:00 AM - 11:50 AM MWF 100 GH Kaler, J

31279 LEC 2 12:00 PM - 12:50 PM MWF 100 GH Dunne, B

ASTR 121 The Solar System

3 hours.

Credit not given to students with credit in ASTR 100 or 210 or GEOL 116; or in PHYS 212 or higher-level Physics course. Students with credit in PHYS 211 are encouraged to take ASTR 210. Prerequisite: Credit or concurrent enrollment in a Quantitative Reasoning I course. ASTR 121 and 122 cover the same topics as ASTR 100, but the material and topics are covered in much more depth over two semesters instead of one. ASTR 121 and ASTR 122 are independent offerings and can be taken in any order. While ASTR 121 and 122 are for non-science majors, problems solving with basic algebra is required. Science and astronomy majors should take ASTR 210.

37115 DIS AD1 10:00 AM - 10:50 AM R 122 DKH

Physical Sciences, and Quant Reasoning II course.

37117 DIS AD2 10:00 AM - 10:50 AM R 123 DKH

Physical Sciences, and Quant Reasoning II course.

37118 DIS AD3 10:00 AM - 10:50 AM R 323 EDUC

Physical Sciences, and Quant Reasoning II course.

37120 DIS AD4 11:00 AM - 11:50 AM R 122 DKH

Physical Sciences, and Quant Reasoning II course.

37122 DIS AD5 11:00 AM - 11:50 AM R 123 DKH

Physical Sciences, and Quant Reasoning II course.

37124 DIS AD6 11:00 AM - 11:50 AM R 323 EDUC

Physical Sciences, and Quant Reasoning II course.

36991 DIS AD7 11:00 AM - 11:50 AM R 143 HAB Sutton, E

First Year Discovery Program Course. Registration restricted to freshmen.

Students should enroll in only one Discovery course. Students who enroll in more than one Discovery course may be dropped from the additional Discovery Courses. For course descriptions, see the Discovery Program booklet. Discovery, Physical Sciences, and Quant Reasoning II course.

36993 DIS AD8 12:00 PM - 12:50 PM R 122 DKH

Physical Sciences, and Quant Reasoning II course.

Astronomy

CRN Type Ref Start-End Times Days Location Instructor

30145 LCD A 01:30 PM - 03:30 PM T 1 912IL Hoddeson, L

Topic: Memory and the Construction of Identity and Culture. The age-old concern to grasp memory and how it serves in the construction of identity and culture is now at the cutting-edge in many disciplines within the humanities, the sciences, law, medicine, and the arts. This faculty and graduate student seminar will take an interdisciplinary look at selected memory topics, such as autobiography, testimony, preservation, forgetting, trauma, revision, and distortion. Faculty who are concerned with memory in different disciplines will take turns leading the discussion. This course is part of a year-long initiative that includes a public events series.

CRN	Type	Ref	Start-End Times	Days	Location	Instructor
May be repeated in the same term as topics vary, to a maximum of 12 graduate hours; may be repeated in separate terms as topics vary, to a maximum of 16 graduate hours. Two or more sections of this course may be offered in a term with different outlines. Students registering in more than one section should receive credit separately for each section. Students will not receive additional credit toward a degree from multiple offerings of this course if those offerings have significant overlap, as determined by the Electrical and Computer Engineering department. Prerequisite: Specified each semester or consent of instructor. (It is expected that each offering will have a 500-level course as a prerequisite or co-requisite)						
29995	LCD	PV	08:00 AM - 09:20 AM	TR	260 EVRT	
Topic: Two-Dimensional Informational Theory. Prerequisite: ECE 451, ECE 458 and ECE 463. Recommended: Credit or registration in ECE 563.						

ECE 563 Information Theory

4 hours.

Same as CS 578 and STAT 563. Prerequisite: MATH 466 or ECE 534, or consent of instructor

37140	DIS	A	01:30 PM - 02:50 PM	MW	165 EVRT	
-------	-----	---	---------------------	----	----------	--

ECE 569 Diffraction, Coherence & Info

4 hours.

Prerequisite: ECE 460 or consent of instructor

Engineering

ENG 100 Engineering Lecture

0 hours.

Required of freshmen in the College of Engineering. Approved for S/U grading only. Freshmen should enroll in the section corresponding to their major. First Year Discovery Program: Priority registration given to freshmen. Students should enroll in only one Discovery course. Students who enroll in more than one Discovery course may be dropped from the additional Discovery courses. For a listing of these courses, see the front portion of this class schedule; for course descriptions, see the Discovery Program Course Booklet.

34117	LEC	AE1	03:00 PM - 03:50 PM	T	159 AH	Larson, S
Meets 25-AUG-04 - 15-OCT-04. Topic: Aeronautical and Astronautical Engineering. Restricted to new freshmen in the Aeronautical and Astronautical Engineering major.

MATH 118 Numeracy

3 hours.

Prerequisite: Two units of high school algebra, and one unit of high school geometry.

Quant Reasoning I course.

32031	LCD	A1	08:00 AM - 08:50 AM	MWF	141 AH	
32032	LCD	A2	08:00 AM - 08:50 AM	MWF	143 AH	
32033	LCD	B1	09:00 AM - 09:50 AM	MWF	143 AH	
32034	LCD	F1	02:00 PM - 02:50 PM	MWF	341 AH	
32035	LCD	G1	03:00 PM - 03:50 PM	MWF	145 AH	

MATH 119 Ideas in Geometry

3 hours.

Prerequisite: Two units of high school algebra; one unit of high school geometry; or equivalent.

Quant Reasoning I course.

30324	LCD	G1	03:00 PM - 03:50 PM	MWF	159 AH	
-------	-----	----	---------------------	-----	--------	--

MATH 124 Finite Mathematics

3 hours.

Prerequisite: MATH 012, or an adequate ACT score.

Quant Reasoning I course. Note: Mathematics placement exams have been eliminated.

32036	LCD	A1	08:00 AM - 08:50 AM	MWF	147 AH	
32037	LCD	B1	09:00 AM - 09:50 AM	MWF	145 AH	
32038	LCD	F1	02:00 PM - 02:50 PM	MWF	145 AH	
32040	LCD	X1	12:00 PM - 12:50 PM	MWF	143 AH	

MATH 125 Elementary Linear Algebra

3 hours.

Credit is not given for both MATH 125 and 225. Prerequisite: MATH 012, or an adequate ACT score. Mathematics placement exams have been eliminated. Math ACT scores are used in their place.

32041	LCD	B1	09:00 AM - 09:50 AM	MWF	112 GH	Thoele, M

MATH 198 Freshman Seminar						
3 hours.						
Prerequisite: Enrollment in the mathematics honors program; consent of department.						
Camp Honors/Chanc Schol course.						
30327	LCD	D1H	11:00 AM - 11:50 AM	MWF	345 AH	Grayson, D
Topic: The Art and Practice of Mathematics. For Chancellor's Scholars; others may enroll with consent of instructor and the Director of the Campus Honors Program.						
MATH 199 Undergraduate Open Seminar						
1 TO 5 hours.						
May be repeated. Instructor Approval Required.						
10551	IND		ARRANGED			
MATH 210 Theory of Interest						
3 hours.						
Prerequisite: MATH 230 or equivalent.						
Quant Reasoning I course.						
30330	LCD	G1	03:00 PM - 03:50 PM	MWF	149 HAB	
MATH 213 Basic Discrete Mathematics						
3 hours.						
Prerequisite: MATH 220 or equivalent. Students may not receive credit for both MATH 213 and CS 173.						
Quant Reasoning I course. Freshman and Sophomores only will be allowed to register.						
32070	LCD	B1	09:00 AM - 09:50 AM	MWF	243 AH	
Restricted to freshmen and sophomores.						
32072	LCD	F1	02:00 PM - 02:50 PM	MWF	147 AH	

CRN	Type	Ref	Start-End Times	Days	Location	Instructor
Restricted to freshmen and sophomores.						
32073	LCD	G1	03:00 PM - 03:50 PM	MWF	243 AH	
Restricted to freshmen and sophomores.						
32076	LCD	X1	12:00 PM - 12:50 PM	MWF	145 AH	
Restricted to freshmen and sophomores.						
MATH 220 Calculus I						
5 hours.						
Credit is not given for both MATH 220 and 234. Prerequisite: MATH 016 or equivalent; or an adequate ACT score. Mathematics placement exams have been eliminated. Math ACT scores are used in their place.						
33517	LBD	A8	08:00 AM - 09:20 AM	MTWRF		
Restricted to students in the Life Sciences. Uses Mathematica courseware. See http://www.math.uiuc.edu/class/schedule/ for details. Quant Reasoning II course.						
33522	DIS	AD1	08:00 AM - 08:50 AM	TR	141 AH	
Quant Reasoning II course.						
34463	DIS	AD2	08:00 AM - 08:50 AM	TR	143 AH	
Quant Reasoning II course.						
34468	DIS	AD3	08:00 AM - 08:50 AM	TR	241 AH	
Quant Reasoning II course.						
34477	DIS	AD4	09:00 AM - 09:50 AM	TR	143 AH	
First Year Discovery Program Course. Registration restricted to freshmen. Students should enroll in only one Discovery course. Students who enroll in more than one Discovery course may be dropped from the additional Discovery Courses. For course descriptions, see the Discovery Program booklet. Discovery, and Quant Reasoning II course.						
40135	DIS	AD5	08:00 AM - 08:50 AM	TR	341 AH	
Quant Reasoning II course.						
40141	DIS	AD6	12:00 PM - 12:50 PM	TR	152 HAB	
Quant Reasoning II course.						
34494	LEC	AL1	08:00 AM - 08:50 AM	MWF	314 AH	Robinson, D
Quant Reasoning II course.						
34508	LBD	B8	09:30 AM - 10:50 AM	MTWRF	256 MEB	
Restricted to students in the Life Sciences. Uses Mathematica courseware. See http://www.math.uiuc.edu/class/schedule/ for details. Quant Reasoning II course.						
34509	DIS	BD1	09:00 AM - 09:50 AM	TR	145 AH	
Quant Reasoning II course.						
34513	DIS	BD2	09:00 AM - 09:50 AM	TR	445 AH	
Quant Reasoning II course.						
34517	DIS	BD3	09:00 AM - 09:50 AM	TR	345 AH	
Quant Reasoning II course.						
34521	DIS	BD4	09:00 AM - 09:50 AM	TR	441 AH	
Quant Reasoning II course.						
34531	DIS	BD5	10:00 AM - 10:50 AM	TR	143 AH	Dornhoff, L
First Year Discovery Program Course. Registration restricted to freshmen. Students should enroll in only one Discovery course. Students who enroll in more than one Discovery course may be dropped from the additional Discovery Courses. For course descriptions, see the Discovery Program booklet. Discovery, and Quant Reasoning II course.						
35091	DIS	BD6	10:00 AM - 10:50 AM	TR	145 AH	
Quant Reasoning II course.						
35101	DIS	BD7	09:00 AM - 09:50 AM	TR	445 AH	
Restricted to students in the Women in Math, Science and Engineering program (WIMSE). Quant Reasoning II course.						
40142	DIS	BD8	09:00 AM - 09:50 AM	TR	243 AH	
Quant Reasoning II course.						
35108	LEC	BL1	09:00 AM - 09:50 AM	MWF	314 AH	Dornhoff, L
Quant Reasoning II course.						
35120	DIS	CD1	10:00 AM - 10:50 AM	TR	345 AH	
Quant Reasoning II course.						
35130	DIS	CD2	10:00 AM - 10:50 AM	TR	140 HAB	
Quant Reasoning II course.

3 OR 4 hours.

3 undergraduate hours. 3 or 4 graduate hours. 4 hours of credit requires approval of the instructor and completion of additional work of substance. Prerequisite: MATH 415 and either MATH 347 or 348; or consent of instructor.

Quant Reasoning II course.

32106	LCD	B1G	09:00 AM - 09:50 AM	MWF	143 HAB	
32103	LCD	B1U	09:00 AM - 09:50 AM	MWF	143 HAB	
			3 hours			
32110	LCD	C1G	10:00 AM - 10:50 AM	MWF	159 AH	
32108	LCD	C1U	10:00 AM - 10:50 AM	MWF	159 AH	
			3 hours			
32114	LCD	G1G	03:00 PM - 03:50 PM	MWF	343 AH	
32112	LCD	G1U	03:00 PM - 03:50 PM	MWF	343 AH	
			3 hours			

MATH 418 Advanced Linear Algebra

3 OR 4 hours.

3 undergraduate hours. 3 or 4 graduate hours. 4 hours of credit requires approval of the instructor and completion of additional work of substance. Prerequisite: MATH 417 or consent of instructor.

39126	LCD	M1G	09:00 AM - 10:20 AM	TR	347 AH	
30351	LCD	M1U	09:00 AM - 10:20 AM	TR	347 AH	
			3 hours			

MATH 423 Differential Geometry

3 OR 4 hours.

3 undergraduate hours. 3 or 4 graduate hours. 4 hours of credit requires approval of the instructor and completion of additional work of substance. Prerequisite: MATH 242 or 243, or equivalent.

Quant Reasoning II course.

39127	LCD	E1G	01:00 PM - 01:50 PM	MWF	152 HAB	
30352	LCD	E1U	01:00 PM - 01:50 PM	MWF	152 HAB	
			3 hours			

MATH 432 Set Theory and Topology

3 OR 4 hours.

3 undergraduate hours. 3 or 4 graduate hours. 4 hours of credit requires approval of the instructor and completion of additional work of substance. Prerequisite: MATH 347 or 348 or consent of instructor.

39128	LCD	F1G	02:00 PM - 02:50 PM	MWF	140 HAB	
30353	LCD	F1U	02:00 PM - 02:50 PM	MWF	140 HAB	
			3 hours			

MATH 441 Differential Equations

3 OR 4 hours.

3 undergraduate hours. 3 or 4 graduate hours. 4 hours of credit requires approval of the instructor and completion of additional work of substance. Credit is not given for both MATH 441 and MATH 385. Prerequisite: MATH 242 or 243, or equivalent; MATH 347 or 348 recommended.

Quant Reasoning II course.

32118	LCD	B1G	09:00 AM - 09:50 AM	MWF	148 HAB	Palmore, J
32116	LCD	B1U	09:00 AM - 09:50 AM	MWF	148 HAB	Palmore, J
			3 hours			
32123	LCD	E1G	01:00 PM - 01:50 PM	MWF	143 HAB	
32120	LCD	E1U	01:00 PM - 01:50 PM	MWF	143 HAB	
			3 hours			

MATH 442 Intro Partial Diff Equations

3 OR 4 hours.

3 undergraduate hours. 3 or 4 graduate hours. 4 hours of credit requires approval of the instructor and completion of additional work of substance. Prerequisite: MATH 385 or 441.

39129	LCD	C1G	10:00 AM - 10:50 AM	MWF	140 HAB	
30354	LCD	C1U	10:00 AM - 10:50 AM	MWF	140 HAB	
			3 hours			

MATH 444 Elementary Real Analysis

3 OR 4 hours.

3 undergraduate hours. 3 or 4 graduate hours. 4 hours of credit requires approval of the instructor and completion of additional work of substance. Credit is not given for both MATH 444 and 447. Prerequisite: MATH 242 or 243; MATH 347 or 348 or equivalent experience.

Quant Reasoning II course.

32130	LCD	G1G	03:00 PM - 03:50 PM	MWF	147 AH	
32129	LCD	G1U	03:00 PM - 03:50 PM	MWF	147 AH	
			3 hours			
32134	LCD	N1G	10:30 AM - 11:50 AM	TR	343 AH	
32132	LCD	N1U	10:30 AM - 11:50 AM	TR	343 AH	
			3 hours			
32127	LCD	X1G	12:00 PM - 12:50 PM	MWF	141 AH	
32125	LCD	X1U	12:00 PM - 12:50 PM	MWF	141 AH	
			3 hours			

MATH 446 Applied Complex Variables

3 OR 4 hours.

3 undergraduate hours. 3 or 4 graduate hours. 4 hours of credit requires approval of the instructor and completion of additional work of substance. Credit is not given for both MATH 446 and 448. Prerequisite: MATH 243 or 380 or consent of instructor.

39130	LCD	C1G	10:00 AM - 10:50 AM	MWF	347 AH	
30355	LCD	C1U	10:00 AM - 10:50 AM	MWF	347 AH	
			3 hours			

MATH 447 Real Variables

3 OR 4 hours.

3 undergraduate hours. 3 or 4 graduate hours. 4 hours of credit requires approval of the instructor and completion of additional work of substance. Credit is not given for both MATH 447 and 444. Prerequisite: MATH 242 or 243 or equivalent, and junior standing; MATH 347 or 348 or equivalent experience; or consent of instructor.

Quant Reasoning II course.

32137	LCD	D1G	11:00 AM - 11:50 AM	MWF	347 AH	
32136	LCD	D1U	11:00 AM - 11:50 AM	MWF	347 AH	
			3 hours			
32139	LCD	R1G	01:00 PM - 02:20 PM	TR	443 AH	
32138	LCD	R1U	01:00 PM - 02:20 PM	TR	443 AH	
			3 hours			

MATH 448 Complex Variables

3 OR 4 hours.

3 undergraduate hours. 3 or 4 graduate hours. 4 hours of credit requires approval of the instructor and completion of additional work of substance. Credit is not given for both MATH 448 and 446. Prerequisite: MATH 243 or 380; MATH 447.

39131	LCD	F1G	02:00 PM - 02:50 PM	MWF	152 HAB	
30356	LCD	F1U	02:00 PM - 02:50 PM	MWF	152 HAB	
			3 hours			

MATH 450 Intro to Numerical Analysis

3 OR 4 hours.

Same as CS 450, CSE 401, and ECE 491. See CS 450.

36039	LCD	B3	09:00 AM - 09:50 AM	MWF	1320 DCL	Heath, M
			3 hours			
36042	LCD	B4	09:00 AM - 09:50 AM	MWF	1320 DCL	Heath, M
			4 hours

Military Science

MILS 101 Foundations of Officership

2 hours.

The Foundations of Officership are examined through a Study of the Unique Duties and Responsibilities of Officers.

32542	LCD	A	10:00 AM - 10:50 AM	MW	313 ARMY	Maloney, J
32546	LCD	B	11:00 AM - 11:50 AM	MW	313 ARMY	Maloney, J
32550	LCD	D	11:00 AM - 11:50 AM	TR	313 ARMY	Maloney, J

MILS 112 Leadership Laboratory

0 hours.

May be repeated. Approved for S/U grading only. For First-Year Military Science students. Field trips required. Attendance at Physical Training two days per week.

30525	LAB	A	06:20 AM - 07:30 AM	W	100 ARMY	Maloney, J
	LAB	A	04:00 PM - 05:30 PM	R	100 ARMY	Maloney, J

MILS 201 Individual Leadership Studies

2 hours.

Class develops knowledge of self, self-confidence and individual leadership skills. Field trips required.

32555	LCD	A	10:00 AM - 10:50 AM	MW	144 ARMY	Tiner, W
32558	LCD	B	11:00 AM - 11:50 AM	MW	243 ARMY	Tiner, W
32560	LCD	C	10:00 AM - 10:50 AM	T	134 ARMY	Tiner, W
	LCD	C	10:00 AM - 10:50 AM	R	243 ARMY	Tiner, W
32562	LCD	D	11:00 AM - 11:50 AM	T	134 ARMY	Tiner, W
	LCD	D	11:00 AM - 11:50 AM	R	243 ARMY	Tiner, W
32564	LCD	E	ARRANGED			Tiner, W

MILS 212 Leadership Laboratory

0 hours.

May be repeated. Approved for S/U grading only. For second-year military science students. Attendance at physical training two days per week.

30532	LAB	A	06:20 AM - 07:30 AM	MW	100 ARMY	Tiner, W
	LAB	A	04:00 PM - 05:30 PM	R	100 ARMY	Tiner, W

MILS 301 Leadership and Problem Solving

3 hours.

Examines basic skills that underlie effective problem solving.

32566	LCD	A	02:30 PM - 03:59 PM	TR	313 ARMY	Stenzel, D
-------	-----	---	---------------------	----	----------	------------

-------	---	-----	---------------------	---	--------	---------

MCB 103 Intro to Human Physiology

3 hours.

Prerequisite: High School chemistry and/or basic biology strongly recommended. Life Sciences course.

30553	LEC	L1	12:30 PM - 01:50 PM	TR	228 NHB	Meisami, E
-------	-----	----	---------------------	----	---------	------------

Molecular and Cell Biology

MCB 104 Intro to Human Physiology Lab

1 hours.

Enrollment restricted to students in majors REQUIRING a lab course in human physiology. Prerequisite: Concurrent enrollment in MCB 103. Animal dissection by students is not required in this course. In some laboratory exercises students may participate in dissection of animal tissues. Some laboratories make use of animal tissues. Alternatives are available. Students interested in alternative exercises should notify the class instructor in writing as early as possible so that appropriate accommodations can be made. Course coordinator is Dr. Esmail Meisami. For questions regarding this class, please contact him at meisami@uiuc.edu or 333-3520.

34359	LAB	A	09:00 AM - 11:50 AM	T	412 NHB	
34360	LAB	B	12:00 PM - 02:50 PM	T	412 NHB

PHYS 100 Thinking About Physics

1 hours.						
Meets 27-SEP-04 - 10-DEC-04. Students may register for PHYS 100 and 211 concurrently.						
Prerequisite: Credit or concurrent registration in MATH 220, or consent of the instructor. This course meets only for the last ten weeks of the semester. For registration authorization, come to the General Physics office (231 Loomis) during the week before the course is scheduled to begin. Exams in this course are given in the evening.

34865 LBD BCS 04:00 PM - 05:20 PM W 257 LMS Hubler, A
1 hours Meets 01-SEP-04 - 10-DEC-04. Topic: Exploring the Behavior of Complex Systems: Chaos, Fractals and Artificial Life. The behavior of complicated systems with many parts will be explored with hands-on computer simulations and lab experiments. Students will experiment with lightning, turbulence, explosions, and human rhythms and use simple computer models to imitate their irregular and symmetric patterns and dynamics and will develop an intuition as to why isolated complex systems prefer harmony and symmetry whereas competing complex systems prefer chaos. Applications in business, engineering, and social sciences will be discussed. PHYS 199 BCS is part of the first year Discovery Program: enrollment is restricted to freshmen. Students should enroll in only one Discovery Course. Students who enroll in more than one Discovery course may be dropped from the additional Discovery courses. For a listing of these courses and for course descriptions, see the Discovery Program Booklet or <http://www.provost.uiuc.edu/students/discovery>. Discovery course.

34870 LCD HM 04:00 PM - 05:50 PM M 257 LMS Beck, D
1 hours HONORS SEMINAR: Topics in Mechanics. Prerequisites: Concurrent Registration in PHYS 211 and consent of instructor. PHYS 199HM can be used to satisfy the honors component of PHYS 211. PHYS 199HM is the honors supplement to PHYS 211 and is intended for those students intending to major in physics or who have a strong interest in the subject. Areas to be addressed include rotational and central force motion, non-inertial frames, non-linear systems and post-Newtonian mechanics. The use of simple visualization tools such as Mathematica and Excel will be encouraged. For registration authorization, go to the General Physics office, 231 Loomis. THE FIRST MEETING OF PHYS 199HM IS WEDNESDAY (SCHEDULED AS A MONDAY) AUGUST 25.

34876 S1 HO 01:00 PM - 02:50 PM M 139 LMS Makins, N

Physics

CRN	Type	Ref	Start-End Times	Days	Location	Instructor
<p>1 hours HONORS SEMINAR: Topics in Electricity and Magnetism. Prerequisites: PHYS 211, concurrent registration in PHYS 212, and consent of instructor. PHYS 199HO can be used to satisfy the honors component of PHYS 212. Students investigate special topics in electricity and magnetism. Through weekly meetings (similar in format to the discussion sections of Physics 211 and 212), students will derive for themselves some of the surprising features of our post-classical physical world. For example, the need for special relativity, the existence of magnetic fields, and the origin of electromagnetic radiation are consequences of simple observations such as the constancy of the speed of light. Other topics will include the nature of Gauss' law and Maxwell's equations, potentials and superposition, amplifiers, analog computers, and the role of quantum mechanics in electrodynamics. PHYS 199HO is intended for students who have been comfortable with the level of difficulty of PHYS 211, and whose math skills are fairly strong. It allows students to confront in greater depth some of the most interesting intellectual issues in classical electrodynamics. The course will use calculus as a problem-solving tool. For registration authorization, go to the General Physics office, 231 Loomis. THE FIRST MEETING OF PHYS 199HO IS WEDNESDAY (SCHEDULED AS A MONDAY) AUGUST 25.</p>						
34885	S2	HT	03:00 PM - 04:50 PM	M	242 LMS	Thaler, J

PHYS 213 Univ Physics, Thermal Physics

2 hours.

Meets 18-OCT-04 - 10-DEC-04. Students may not receive credit for both PHYS 213 and 101. Prerequisite: PHYS 211, credit or concurrent registration in MATH 242.

Physical Sciences, and Quant Reasoning II course. For students in engineering, mathematics, physics and chemistry. Exams are given in the evening (during fall and spring semesters). In the fall, PHYS 213 meets only during the second half of the semester (with PHYS 214 meeting in the first half). In spring and summer, PHYS 213 is offered first, followed by PHYS 214. Register for a laboratory section, a discussion section and a lecture.

PHYS 498 Special Topics in Physics

1 TO 4 hours.

Prerequisites: Determined for each offering; see Schedule.

Advanced Composition course.

40486	LEC	NSD	04:00 PM - 05:50 PM	T	144 LMS	Yazdani, A
2 hours Physics of Nanoscale Structures and Devices. Understanding the physical properties of nanoscale systems has become a major topic in both science and technology. After a review of basic quantum mechanics and solid state physics, we will begin our survey of nanoscience by examining classic problems of electron transport in nanostructures. A number of topics, from quantum interference and confinement phenomena in nanostructures to more recent realization of electronic devices based on single molecules will be						

Physics

CRN	Type	Ref	Start-End Times	Days	Location	Instructor
discussed. Other topics of interest are superconductivity and magnetism in nanostructures. Throughout the course, we will review both methods of creating nanostructures as well as the techniques used to examine their properties. Prerequisite: PHYS 211-212-213-214. Basic knowledge of calculus and differential equations is assumed. Both engineering and science majors are encouraged to participate.						
30690	LEC	ST	01:00 PM - 03:50 PM	F	137 LMS	Cooper, S
3 hours SENIOR THESIS. Prerequisites: consent of instructor; summer research experience appropriate for thesis; PHYS 498IPR (PHYS 398IPR) (introduction to physics research, offered spring semester) suggested but not required.						
PHYS 504 Statistical Physics						
4 hours.						
Prerequisite: PHYS 427; PHYS 486 or equivalent; or consent of instructor.

Prerequisite: Determined for each offering; see Schedule.						
34935	LEC	AST	02:30 PM - 03:50 PM	MW	232 LMS	Lamb, F
4 hours Topic: Astrophysics. Satisfies the physics graduate program "cafeteria" requirement. PHYS 598AST will survey astrophysical phenomena and processes relevant to the evolution of the Universe and structures in it, from the formation of stars and galaxies at the earliest times to the final end states of matter as compact objects. The emphasis will be on developing an understanding based on the underlying physics. Exciting recent developments will be described. Specific topics will include big bang cosmology and the cosmic microwave background radiation; formation, interaction, and evolution of galaxies; formation, structure, and evolution of stars; dynamics of stellar systems; white dwarfs, supernovae, neutron stars, and black holes; physics of accretion disks; the fate of the universe. Topics of special current interest will include cosmological inflation, dark matter in the universe, powerful gamma-ray bursts, feeding of quasars, generation of radio and X-ray emission by supermassive black holes, gravitational lensing, sources of gravitational radiation, and the solar neutrino problem. Course work will consist of weekly homework problems, a mid-term exam, and a final exam. The course will be based on lecture notes and readings, and will be taught at the level of the Astrophysics I and II texts by Bowers and Deeming.						
34933	L1	B	10:30 AM - 11:50 AM	F	144 LMS	Nathan, A
1 hours Meets 25-AUG-04 - 15-OCT-04. Graduate Physics Orientation: Research and Teaching in the Physics Department. PHYS 598B is required for all new physics graduate students. It includes advice on choosing a field of research and finding a research advisor. Current graduate students will relate their experiences and advice; faculty will present overviews on the major areas of research in the Department. Physics staff will explain our computing facilities, the physics and astronomy library, and other facilities. There will be general discussions on research and instructional topics as well as ethics in teaching and research.						
40488	L2	BSM	01:00 PM - 02:20 PM	TR	158 LMS	Stack, J
4 hours BEYOND THE STANDARD MODEL.						
40489	L1	CP	01:00 PM - 02:20 PM	MW	144 LMS	Gammie, C
4 hours Topics in Computational Physics and Astronomy. PHYS 598CP is a numerical laboratory course designed to familiarize students with the use of a computer to solve diverse problems in physics. Problems will be drawn from several different branches of physics and astrophysics. Hydrodynamics, including the physics of shock waves, will be emphasized as the main paradigm for nonlinear phenomena. For the hydrodynamics, the necessary analytic results will be derived in class. Examples drawn from classical mechanics, electromagnetism, quantum mechanics, etc. will already be familiar to students from standard physics courses. Numerical methods discussed will include solving ordinary and partial differential equations, linear algebra and eigenvalue problems, Monte Carlo techniques, FFTs, etc. Students will work on assigned numerical exercises and simulations both individually and in small teams. The results of these simulations will be presented in class periodically and will constitute an integral part of the class development. The emphasis throughout the semester will be on building confidence and expertise at solving physical problems on the computer. Prerequisites: No formal requirements other than a working knowledge of some scientific programming language like Fortran, C, or C++. Graduate students and upper level undergraduates with solid backgrounds in basic physics are welcome. This course should only be taken by students who plan to participate actively.						
34945	L4	ESM	09:00 AM - 10:20 AM	MW	158 LMS	Goldenfeld, N
4 hours Emergent States of Matter. PHYS 598ESM is an introduction to the consequences of broken symmetry in condensed matter, the emergence of novel ground states, and the nature of the excitations that arise. Specific systems covered include superconductivity, superfluidity, Bose-Einstein condensates, the quantum hall states and liquid crystals. Prerequisites: PHYS 504 (PHYS 462) and PHYS 580 (PHYS 480), or consent of instructor.						
34934	L5	MMA	10:30 AM - 11:50 AM	MW	144 LMS	Stone, M
4 hours Mathematical Methods in Physics. Replaces PHYS 506/507 (PHYS 411/412). PHYS 598MMA focuses on core techniques widely used in the physical sciences. Emphasis is on applications, and a broad range of illustrative						

Plant Biology

Plant Pathology

CRN Type Ref Start-End Times Days Location Instructor

examples will be explored. Primary topics include: calculus of variations and its applications; partial differential equations of mathematical physics (including classification and boundary conditions); separation of variables, series solutions of ordinary differential equations and Sturm-Liouville eigenproblems; Legendre polynomials, spherical harmonics, Bessel functions and their applications; normal mode eigenproblems (including the wave and diffusion equations); inhomogeneous ordinary differential equations (including variation of parameters and Green functions); inhomogeneous partial differential equations and Green functions; potential theory; and integral equations (including Fredholm theory). Will continue in spring semester PHYS 598MMB with complex variables, group theory, and other topics

34936 LEC NSM 09:00 AM - 10:20 AM MW 144 LMS Schulten, K
4 hours

34946 LBD OS 10:30 AM - 11:50 AM TR 136 LMS Gratton, E; Clegg, R
LBD OS 12:00 PM - 02:50 PM F 6106 ESB Gratton, E; Clegg, R

4 hours Optical Spectroscopy. PHYS 598OS is a course for students who want to acquire a more detailed molecular description of the interaction of radiation with molecular matter and molecular fluorescence. Both quantitative theory and experiments will be covered. The description of the experimental situations and data analysis for obtaining molecular information will be based on a solid theoretical setting that forms the framework for the course. The emphasis will be on biophysical experimental situations, using fluorescence and absorption measurements, stressing optical spectroscopic transitions involving molecular electronic and vibrational transitions. The basic interaction of the E&M field with the molecules will be covered mainly from a semi-classical point of view. The course will contain a laboratory section. Practical spectroscopy examples will demonstrate how to measure and interpret molecular properties from optical spectroscopy experiments. The course should be of interest to students with a broad range of backgrounds. Prerequisites: undergraduate courses in quantum mechanics and statistical mechanics, or consent of instructor.

34940 L1 SCM 01:00 PM - 02:20 PM TR 144 LMS Martin, R
4 hours Electronic Structure of Condensed Matter. The study of the electronic structure of materials is at a momentous stage, with new algorithms and computational methods, and rapid advances in basic theory. Many properties of materials can now be determined directly from the fundamental equations for the electrons, providing new insights into critical problems in physics, chemistry, and materials science. PHYS 598SCM will provide a unified exposition of the basic theory and methods of electronic structure, together with instructive examples of practical computational methods and real-world applications. The course will include density functional theory - with emphasis upon understanding the ideas, practical methods, and limitations - and practical calculations with open source codes. There will be a focus upon important developments such as "Car-Parrinello simulations" and the theory of localization in terms of Berry's phases. The primary resource will be the book, "Electronic Structure Basic Theory and Practical Methods" by R. M. Martin, Cambridge University Press, 2004.

(<http://books.cambridge.org/0521782856.htm>), with additional material on important many-body methods such as quantum Monte Carlo and dynamical mean field theory. An integral part of the course will be a project done by each student individually or as part of a team; the topic can be on an aspect of electronic structure theory or on an application of an existing method to a problem in physics, chemistry, or materials science. Links to related resources can be found at ElectronicStructure.org and at the Materials Computation Center.

38745 L2 VDG 10:30 AM - 11:50 AM MW 158 LMS Leggett, A
4 hours Very Degenerate Atomic Gases. With the aid of laser cooling and other techniques it has become possible in the last few years not only to stabilize dilute gases of alkali atoms (and some others) but to cool them into the temperature range where the effects of quantum degeneracy become dominant; in particular, both Bose-Einstein condensation (BEC) and Fermi degeneracy have been realized in these systems. PHYS 498VDG will cover trapping, cooling and diagnostic techniques, the general theory of BEC and the principal physical properties of trapped BEC gases, special effects associated with the presence of

multiple hyperfine species, Bose gases in optical lattices and questions concerning the possible onset of Cooper pairing in degenerate Fermi alkali gases. Other topics may be included on request. Prerequisites: basic graduate quantum mechanics, basic graduate statistical mechanics and an undergraduate course in atomic physics.

RHET 108 Forms of Composition						
4 hours.						
Students with credit in RHET 108 may not receive additional credit for RHET 105 or SPCM 111 and 112. Registration in RHET 108 is limited to students who are recommended for RHET 108 on the basis of the Rhetoric Placement exam. Original freshmen placement determines the eligibility of sophomores, juniors, and seniors. Note: Transfer students who have not yet taken a college composition class elsewhere, should contact the U of I testing office to arrange to take a placement exam. Transfer students who have taken composition from another institution, but have not fully satisfied the U or I comp I requirement can take the transfer writing test for proficiency credit.

SOMETIMES, 1% CAN MAKE ALL THE DIFFERENCE IN THE WORLD.

*Harrison Ford - longtime
Conservation International
Board Member*

The human heart is about 1% of your total body weight, but it's critical to your survival. Our Earth has places that amount to just over 1% of its surface, but they are critical to our survival. They're called biodiversity hotspots, and Conservation International is fighting to protect them before they disappear forever.

These hotspots are home to over 60% of the world's species—plants and animals that provide food and medicine, clean our air and water, and keep our planet alive. Conservation International has helped save millions of acres and hundreds of species in these hotspots. That could make all the difference in the world. Literally.
